WHOSE RELIGION IS THIS ANYWAY?

admittance into the Jewish religion once required the pupil/disciple to be circumcised to be held a participant of the Covenants of promise. However, with the coming of Mashiach, who is our circumcision. That is, if we are in him. Circumcision has been rendered obsolete, in Mashiach. This Law has been abolished in Mashiach. See, Rom. 7:4; (That is, the law that one must first be circumcised). Rom. 3:26 - 29.

Mashiach has made us part of the commonwealth of Israel. See, Eph. 2:12; 1Pet.2:9 - 10. If the spirit of G'd dwells in you. See, Rom.8:9 - 17. and, if the spirit of God is in you heir to all of the precious promises G'd. See, Gal.3:29 Holding:

"If you be [C]hrist, then are you abrahams seed."

Therefore, We are bound to keep the righteous requirements of the law of G'd. See, Rom. 2:26; 8:1 - 17.

Many do not share this writers belief's that, Eating what G'd has instructed is required. I believe that this diet is the superior diet. Initially, Man and woman were informed by G'd to only eat of the trees, herbs, vege's, etc. They were not instructed to eat meat at all. As stated previously, meat was introduced only after 'they' had fallen from grace, and, G'd had killed the lamb as a sacrifice for their sin. Science has now caught up with G'ds knowledge regarding the (vege) diet. It has been deemed by science professors as the best diet on earth. These same scientist have held that, eating Pork and shellfish and other sea creatures that, lack both, scales and fins are harmful to the human body, due to the TOKINS they impart therein. People of color eat more pork, I believe than any other race on earth. And, they suffer for it. 'they' suffer with heart conditions, bloodpressure conditions (heart), circulatory conditions (heart), and die from heart attacks and strokes more than anyone in the United States. The particular creatures pointed out by G'd in **Leviticus**, as unclean. Have too been shown to cause health problems in all nationalities. How could Moses know these things that, our scientist today, are just now figuring out? They were cavemen in comparison? Eating vege's only has had the affect of lowering bloodpressure, unclogging clogged artery's, and causing significant, yet safe, weight loss. In fact, bringing a persons weight within its normal range for that persons hight and weight. this is amazing. Perhaps Moses learned these truths from empirical investigation's? However, I doubt it.

The apostle Peter Lived with Yahshua for three year's, and perhaps knew him longer. Yet, (14) fourteen years after Yahshua's death and resurrection, Peter has a vision, seeing a number of unclean animals, and being invited to eat of them. Peter obviously recognized the voice speaking to him to eat these unclean things and responds: "Lord, not so! for I have never eaten anything common or unclean." See, Acts 10:10 - 14. Now, Peter was with Yahshua for three known year's, and was responsible for at least on one occasion, getting Yahshuas meal. See, Jn.4:8. Yet, this man was able to tell his master that, He'd never eaten anything unclean after fourteen years after his masters demise and resurrection. Never! I may extrapolate from here. If Peter was walking with the Yahshua of the (4) four Gospels for three years, and fourteen year's after Yahshuas death and resurrection was able to say that, He'd never eaten anything unclean as per the Jewish Canons. It is safe to assume that, Jesus neither eat unclean things. Nor did Yahshua teach his disciples to so eat.

Within the (4) four gospels, Yahshua was teaching his disciples some pretty racy things like, "to look at a woman to lust after her, is to have committed a sexual sin with her." See, Matt. 5:28. Etc. This during those times was unheard of. Why could he not also have taught them that, Eating unclean things would be O.K. once he died on the cross? and that, He was only eating those things deemed clean due to his keeping the law so that it could be abolished? I say this because, Peter, after (14) fourteen years still was not in the business of eating unclean things, and he was obedient. This is due to the vision not refering to eating food, as we know it. See, Acts 10:28 where Peter himself gives the interpretation of the vision as G'd saying that, 'he should not call any man common or unclean.' The vision merely used food as an example. Many so called teachers have lead people astray with their misinterpretation of this scripture.

Believers today must admit that, they have been "grafted" into an east religion. "Judaism." However, during the time of the Mashiachs first coming, and then conform to it. Instead of trying to Americanize it. Manly, Hebrew writers wrote the Text. Hebrew writers were translating hebrew thought into greek, Etc. The source is Hebrew.
