I Love all OF you, Doing my best to come home.
Let me give God praise and props FIRST.

To The Queen Mother Trudi and Mr. Grant, glad you
are able to see the start of our new family culture
of togetherness being shared with and for our
New Generation Rising before your very eyes.

To our O.G, The Leadership, The First Male Seed born
From our Queen, Glover "Big Man". Every tribe of
humans, kind of animals and all living organisms have
an Alfa-Male, it is my honor to call you Big Bro
and thank you for your wisdom and leadership.
New Generation Rising towards you. All in Favor say I.

It's so much that I want to say: I will start with
the Slave Ship and Rap verse I wrote for all of you
to see everytime any of you come to our New Family
Blog BetweentheBars.org / New Generation Rising.

This Rap Verse is most of the names of a New Generation
of inner City Youth that is now on California Death Row.
we all chose to reach back to the streets, and to our
families to show love and do our part to make sure
that the New Generation of our own individual families
are always safe, cared for, and most importantly,
connected. Our mission is to keep all of you out of jail.

I came up with this idea from thinking about how
my Youngest Bro Willis was single handedly trying to
bring our family together, The reason it never worked,
over the years, ~~is~~ because, we all was not helping
Willis help us be united as one. OUR Apologies Bro.

Willis, Bro, as you can now see, those days are over,
we even had to call in reinforcements from Englewood,
and our Princess Delora Rushed to leadership position
with Princess Johanna, Kehon, Big Man and the Coll

was put out; and take a look at what you had in your brain way before we did, so look around BRO, and enjoy the Faces of our New Generation Rising towards you, in love. All in Favor say I.

(Read By: Tamor)

I'm requesting that Tamor read this page to our New Generation as everyone gather in silence.

Our Queen Mother, Trudi has given us two things;

#1. Knowledge of God; which is Life.

#2. Music; Life in vibration, in the Universe, Heaven and on Earth!

These must always continue to be the foundation in our Family. Those of you that can sing, Rap, Dance, play instruments and know your way around music computer software, OR have a great appreciation for sound and can hear what the rest of the world can't hear, will never be broke, use your gift, build together, help each other.

Your world is always changing, stay together, in song, and in life. Support each others' ideas, no matter what, and as long as you have access to a computer, your music will live forever. Be the writer, the producer of your own dreams, more on this in the future.

If you are not working, You are going to school, or both, open your own bank accounts, value your own line of credit. Find someone to love and live your life with, stay healthy, know our Family Medical History information, come on Black youth, know more.

For example, being slim don't mean everything is all good, I'm a boxer and trainer of Many, and I had no idea that my super healthy body had high cholesterol and I was months away from having a stroke. The Doctors said, one or both of my parents has it, so all of the diet and exercise wasn't enough, so I've been prescribed Lipitor just like on the T.V. commercials. Stay healthy.

Get tested, get blood tested for everything, know who you are, ask our Queen about other family members and how they past away because one day, one of your

Very own children might want to play sports or run track. What I'm saying is, let's do a Family Tree. Do it on paper, Right now, for starters

Everybody must report in the following: Here's My Example:

Name: Floyd Smith

Date of Birth: July 20, 1967

Parents: Floyd Smith (Father) Gertrude Ramsey - Paige (Mother)

Any Pre-existing Medical Conditions: Spine Bifida, High Cholesterol, Enuresis.

Children: Raylon Evans-Smith, Rose Shouna Smith

Spouse: Melissa Evans-Smith

It's that easy, Kids, Grand Kids, New Generation, it's important for your future to know your own history. Tchonne will keep the info y'all collect today. It's up to one of your youngins to reformat it and post it on our blog New Generation Rising.

(Read By: O.G. BIG MAN)

The Big Question is, how far back can we go? What do our O.G.'s know? Have y'all heard about Uncle Harold? Aunt Sanchez? Aunt Delores? What can our Cousin Briny tell us about Debra? Aunt Georgy and Uncle Eleck?

Use this moment to Know Facts, Know about who we are, I am ashamed to admit that I don't even know my Grandma Ramsey's First Name, I know Grandpa George. He ran the The Gulf Gas Station in Banning off of Ramsey Street in the 50's & 60's.

From The Stone Ships, To our youngest Seed, it's well over-due that we all mean something important too each other. Before everybody log off of this blog today, each one of you can take the opportunity to let George & Floyd know that there is a New Generation on the rise, we can't wait to here from y'all.

Love and Respect to The 1st wave of Angels in this Tribe
Anarie, Brigitte, Tchonne, Emery, Carla, Faye and Victoria and
Delores, and my Sweetie Melissa, Keep us all ONE!
