

Fallen

I Wanna Get lost in Your World
See what You See
Feel what You Feel
Know what You Know
understand Your likes and dislikes.

I Wanna Migrate to Your Planet
to seek love
cause

When I look in to Your eyes
I can see love has a chance to survive
I can't get You off of MY mind
Your face orbits around MY head
like a Solar System.

I Yearn for Your affection
to come and sweep me
off of MY feet
every day

I constantly dream about us
intertwinings are love
in this atmosphere.

Your Present is like a ozone
it protect me from MY fears

I cant control MY feelings
when I'm thinking of You

I need You....

I want You to want me in Your life
So let me in Your world.
