

Chapter XX

State Representative Benjamin Swan is a true humanitarian. Mr. Swan had promised that he would come here to the prison "unannounced" to visit the HSU when we met with him on May 23, 2013. As I reported previously in the Madness Journals this meeting really pissed off Deputy Denied-Oh and I am now happy to report that this unannounced visit, on which Representative Swan was accompanied by Senator James Eldridge, really pissed off Deputy Denied-Oh. Now she did her best to "put on a happy face" with the Representative and Senator, but what she did not know was that we had prepared them for her con-man, charlaton tactics: and they are smarter than her. They made it appears if everything was hunky-dory with them as well during their little tour of the death chamber that is Denied-Oh's HSU, but they saw exactly what we wanted them to see: a bunch of blind, deaf, dementia riddled, old men who no longer pose any threat to public safety warehoused in a prison reaping overwhelming and unnecessary security costs while keeping evil jailers like Denied-Oh and her ilk employed. Both Mr. Swan and Mr. Eldridge know that Denied-Oh's minions up there rob the patients, read their legal paperwork out loud with the help of staff (CO Killi Power-Less). We preped them and they know the truth. The Deputy cannot hide: we will keep getting the government to come in. We will keep doing our best to expose her evil. She will NEVER be able to hide! Free Speech will expose her wrongdoing/her evil. I'll keep you posted on those efforts. Help us throw water on the witch!!

Well I am happy to report that they have solved all the problems at ShirleyWorld. That's right they figured out what was wrong: it was the pass system! Now with all the real problems here that diminish the safety of the public, like suicide, drug use, a 47% recidivism rate, a 2 to 1 prisoner to staff ratio that costs you \$362,000,000.00, but NO, they must address the pass system. Now for those of you who do not know what a prison pass is, it is just a card that you place in a box which lets the prison know where you are. When you leave your unit you place one card in a slotted box which lets them know where you went, and when you get to where you are going (the library, gym, school, etc.) you put another card in that slotted box. They have been doing this here for years with no problems. You get a few new suits (dumb-ass prison administrators) and they come up with these foolish schemes to further humiliate and control and already hopeless population. They just intsalld \$5,000.00 worth of new passboards (there was nothing wrong with the old ones) and created all these rainbow colored passes: it is tue foolishness. Men are dying in the HSU, guards beat men in the housing units (CO Herpig punched the con first - he admitted that - but the con is still in the hole), Denied-Oh shuts down every program or religious group, Lt. Whirlwind is creating heards of angry prisoners to be released upon your streets, and all this assinine administration can do is implement a new pass system! Typical DOC. It is the magicians old trick of getting your attention with fancy hand movement while they unbuckle your watch strap. They sad news is that it is your wallet they are stealing and your life they may be taking when Whirlwinds angry releases (not her queefs) hit your street.

Right after Senator Eldridge and Representative Swan's visit they fools here at this shit-hole did what they always do: they retaliated with petty control measures. This time they assembled the "ID Task Force" and patrolled all the walkways ensuring that prisoners had their ID's stapled to their chests (that is what they would do if they had the chance). Now this over-the-top enforcement was carried out by some of the usual players: you had the \$85,000.00 to \$95,000.00 per year hate-monger Lt. Whirlwind at the head of the charge, she relishes this opportunity to abuse; you also had Sgt. Messy-her who tries to be a "good guy" with old school cons, but jumps balls deep into these petty control measures - it appears he may need a doughnut sized Prozac tablet to address these obvious psychosis. You (the taxpayer) spend \$362,000,000.00 for the "ID Task Force"! Where is the outrage???

My right hand man in the fight to expose the madness here at MCI ShirleyWorld, "Fish", has been under a not so subtle attack from the Whirlwind herself. This fool cannot pass up an opportunity to harrass Fish about the "decorum" of his cell. That is their (the abusers) term for this control measure: "Cell Decorum". Lt. Whirlwind has Fish living in a bathroom size cell on the Death Chamber Lifers Block and expects him to clean his "cage" like he is Mr. Frencj from Family Affair. Is she shittin' me? They jam us in a cage and then think we are going to get on our hands and knees and scrub the floor. Now I know that there have probably been many times when the Whirlwind woke up on the floor, partially clad, and feels that floors should be kept clean, but I ask that she refrain from imposing her flawed morality upon men who live their lives with dignity in this crazy world. The real madness in this is that it is not the job of a \$90,000.00 per year lieutenant to stop men on the prison walkways (this is at least the third time she has done this to Fish) to talk to them about the cleanliness of their cage. It is not in the detailing of her official duties. Trust me when I tell you Fish's cell is super clean: he just a lot of clutter due to the fact that he has BEEN IN PRISON FOR TWENTY YEARS! Lt. Whirlwind picks on Fish beacuse she knows he is being effective in the effort to expose the great failure that is ShirleyWorld, while exposing the large role the Whirlwind plays in that public safety nightmare.

Very sad to report that anothe rprisoner passed away in Deputy Denied-Oh's "Skilled Nursing Facility" (that oxymoronic moniker kills me - and I guess it killed this sick con). Eddie Silva had liver disease. As always Denied-Oh's expert team was affording him substandard care. I did not know Eddie, but I will try to contact his family and let them know how CO Killi Power-Less tortured him and how Deputy Denied-Oh carpet swept known abuse. May the sould of Eddie Silva rest in peace.

I want to assure anyone who may read this blog who works in the prison system in any capacity, and wants to leave comments about abuse they witnessed, that I will protect your confidentiality with my life. please afford me your first hand insight into the abuse you have witnessed,

it will help us to tell the story. I will protect your efforts with everything I have.

I also want to remind any of the abusers who read this that if you leave a comment I will immediately forward it to the Attorney General's Internet Crimes Task Force as it is a crime to violate the confidentiality manadtes of your employment. Isn't free speech great? I can accept help, and keep their comments safe, but I can also expose the abusers giving their "electronic footprint" to the AG. Do you remember what happened to the guards that posted abusive rants about Sheriff Frank Cousins in Essex County? They are cleaning up the mess in the VIP Room at the World Famous Golden Banana now! They are janitors scrubbing slime off the nauhgahide couches that hosted lap dances! My hopes are that maybe we can send some of this abusive layabouts off to clean up the dried slime at the Foxy Lady! You know they are far better suited for that job.

Please join us for the "Occupy Prisons Rally" set for Saturday, September 28, 2013. Please contact the CURE-ARM secretary, Karen Schulman, to find out more. You can reach her at;

klschulman@verizon.com

Please help us to expose the madness of the current criminal justice system which diminishes public safety and your quality of life. Please come and listen to people speak about how they are fed up with paying the likes of Denied-Oh and Whirlwind to ruin lives. WE NEED YOUR SUPPORT!

More To Come...

IN SOLIDARITY!!!
