

Resolution on AMP Disbandment By CCAMP/Chairperson

August 3, 2013 - As the three-year anniversary draws near since the 2010 founding of the Amazon Maoist Party (AMP), we convened our Third International Congress where our State of the Struggle report was given.

It was concluded that AMP lacks the organizational resources and capacity to actively build or sustain a party organization. Therefore, it is resolved that AMP is hereby disbanded.

Members are encouraged to join or support other existing Maoist cells and revolutionary feminist cadres within the Anarchist and International Communist Movements (ICM). Amazon sisters may continue to organize into bands of three (the traditional "Trikona" cell structure of our tribes), and work in solidarity with anti-imperialist or prison abolitionist groups for the advancement of LGBTQ and Women's Liberation.
