Dear Concerned Reader:

This is the perfect time and place in an historic moment, to reawaken the entire Country of the Northern American geographical region of people to the ugly face of the holocaust of slavery and its present form of current existence on an extremely large scale.

Absolutely [no] one wants to talk about slavery, or that congressional and state legislature leaders writing and passing slave laws for financial gain. The entire world should never, ever foreget the ugly face of slavery that has resurfaced its ugly head to do what this Country so enjoys doing best, stealing, killing, rapen, destroying and enslaving other humans in the name of [democracy].

Maybe, just maybe, if we had kept the ugly reality of slavery in the Country and the entire worlds face, then maybe, just maybe, the historical events of slavery wouldn't have come back 360 degrees. The Jews did something extremely smart when they made a decision, the entire world would never foreget the ugly face of there holocaust, because when one foregets, then historical event shows that one repeats, and one things for sure history doesn't lie, just men and woman and kids.  
Words from a slave.

Sincerly

Allan Tracy Gimore
