First let me say, I'mmmmm back! Finally I've got the energy to just write. Being sent from here in a ambulance with a temp. of 106°, Took more from me than I almost had to give. I want to thank the Doctor's Nurse's and staff, at the Huntsville Memorial Hospital, that works their asses off. Yes, mom I was a pretty good patient, but I still needed a hug. Really kid's, I thank God for me going to a free world hospital, because I would have died in one of our prison hospital's.

I also need to thank Benjamin Sugar, Sir you did find help, because, outta the blue some Great people showed up boxed all the Book's and took down his shelves. No clue who but I do, Thank's Dude. By the way spots with Bookman things are as well as can be but he's comfortable and not in pain. Hey Dennis, enjoyed our conversation and hearing you smile. I felt it all the way down Texas way!

MR. Sugar Please post my first two submissions for the prison Poetry workshop. Thanks for this opportunity!
