SEPT 10, 2013

Greetings! I received your comments last night. Thank you, and thank you for your help with TTB. Yes it was sad about Cab, Got some more sad news today. My neighbor William Hepp got his death warrant signed and was taken to Florida state Prison to be placed on death watch. This has just messed my day up. I need help in finding an attorney to try to shut these executions down. If you know any - please send them my way. and tell others about this website.
