

# Unforgiveness

pg 1

September 06, 2013

To my viewers:

- Unforgiveness with victims - where they loved ones was hurt or them. Personally I don't believe in death penalty because it's just legalize murder. With ~~just~~ justification, yes, I believe they should spend the rest of their lives in prison. If the crime was horrific. Society don't know how these individual are in prison. Most <sup>of</sup> them can't forgive themselves. Majority of them are dying slowly in miserableness. Some stay drugged up on physic medicine, a lot of them on three or four physic medicine because they can't sleep at night. Some ~~off~~ <sup>off</sup> have accumulated diseases that causing them to deteriorate. I say this to say this we don't have to take vengeance in our own hands. But God has way of dealing with our enemies. Who has hurt us or our loved one. Just cause we don't see it don't mean it's not so, we have to forgive so we won't live in miserableness along with our enemies. We will never forget the horrific thing happened to us or our loved one. Cause sometimes healing can take years or decade. But in the midst of our forgiving and healing. We will find peace and joy. I can relate to this because someone killed my son, I was raped, molested 3 times and put in prison for something I didn't have no knowledge about.

I haven't forgotten the horrific things that happen to me and my son. But I <sup>have</sup> forgiven and still currently healing. In the midst I found peace and joy in my inner man. It was not easy. I cried a lot till I would have headache. Even sometimes I couldn't eat. When I thought about each horrific act, I would get sick to my stomach, but I made it.

you can too! Start To forgive, let God do his vengeance, not yours.
