

Dear Imponderables,

Thank you so much for your additional comments. What we could really use is someone who has the computer skills to build a website for our newly renamed prisoners organization "Bread & Water". CURE-ARM (the organization I developed) will be changing to "Bread & Water" soon and need to have a website to tell folks who we are and what we stand for. Is this something you may be able to help us with? If so I would be able to supply you with all the information you may need and we would ask to use a free website access site. Please let me know.

Thank you again. Keep reading the blog and I hope to hear back from you again very soon.

Peace,

A blue handwritten signature, appearing to be 'Timothy J. Muise', written in a cursive style.
