"Cancer Removed"

* * *

Thank all of you answered my blog with kind and tender words. My colon cancer has been removed. I've already regained my energy. That's so crazy how it affects the whole immune system.

I actually woke up & saw the tail end of what they were doing on screen. I did hurt a bit, but they were basically done. I'll keep everyone posted. Again Thank you for your kind expressions

Show magazine has burned hundreds of inmates on their money - Prepaid subscription unfilled - Any one in the free world experiencing this as prisoners?

* * * * *

Any one out there can download me a few pictures of lions. I would very much appreciate assistance.
