

Family?

The feelings are heartfelt
along with nostalgia, tears & fears
we hope for better tomorrows, together forever
journeying through life, failure never
enjoy the radiant sun, I battle through bad weather
as one, let's elevate to overcome
I remember everything about you
your smiles & frowns along with the ups & downs
Missing you is not enough
we're apart but together
honestly its tough
wavering like the blue sea
forcing me to see until I see
stunned like one, two, three
this isn't a stranger its me
what I thought was your family
