

## UNCLE TOMISM

National Black leadership(N.B.L.) response to black-on-black crime is not only disgustingly shameful, it is downright Uncle Tomish. The (N.B.L.) vehemently and adamantly condemns blacks engaging in violent Intravictimization. Yet, the (N.B.L.) cowardly refuses to identify and name the obvious catalytic root-cause of ALL maladies suffered in most black communities as Limited employment, economic and educational access & opportunities; inadequate health and dysfunctional families. Racist white amerikans continued discrimination, systematic and institutionalized denial of equal access and opportunities to New afrikan blacks is the indisputable culprit of this epidemic of black-on-black crime. As is the norm in amerika, the occupied Nation of New Afrikans are being rebuked for failing to be a better victim under the most insidious, inhumane, intolerable racist conditions on earth designed to genocide the spirit and to destroy the will and life of New Afrikan blacks.

The solution to (black-on-black) crime RACIAL INTRAVICTIMIZATION is the eradication of(white-on-black crime) RACIAL INTERVICTIMIZATION.
