At the beginning of November we had an officer that was stabbed by an inmate that was being escorted - allegedly he mysteriously unlocked his hand cuffs with a home made key and viciously attacked.

They did a revenge type search of the four buildings & charged every inmate if he was in possession of altered state property. \$49.00 for a mattress \$200 / pair Boxers (ect) Now heres the catch - inmates are not issued mattresses they are in each cell when he is placed in the cell. We are supposed to fill out a slip of paper - that is a lien against his account if the material if it gets altered then they charge. But they did not follow protocol - 90 percent of mattresses were pre-ripped before hand. Still they wrote every one up and when you found guilty of the infraction they also suspend store privileges - TV viewing and yard privileges and this is exactly what they did.

It was pure hatred in punishing over a thousand men for what one man allegedly did. Our families send that

money. So inmates can buy things they need that the prison does not provide. Why should our families suffer too. I think some of these employees should be laying on a mattress in the same manner as we are. Don't get me wrong some officers are decent folks but the tyrants seem to cloak honesty here.
