

"Haters"

A Hater is somebody that envies you, someone that can't be you or do what you do so rather than looking up to you or acknowledging your accomplishments, they hate on you. Haters are a sign that you are doing something right.

Haters is a person who sees a person that has something they don't whether in appearance or material, and looks for something to be wrong just because they can't handle the thought that someone just might be better than them.
