Dear Mr. Welever:

Re: Otis Rodgers  
1993 Marwell Blvd.

I have spoken with Otis about the situation he is currently experiencing. In exploring this situation with him, I believe that I have obtained a pretty good picture of the dynamics which are operating.

I strongly recommend that Otis be permitted to return to school immediately. He wants to complete his high school requirements and should be given this opportunity. I believe that the problems which have been manifest are of a situational rather than a chronic nature and can be handled by him.

A detailed report of my examination will be forthcoming in a few days.

If you have any questions, feel free to call me. My office number is Kent 673-1211, Ext. 270. My home phone is Akron 253-7919.

Sincerely yours,
