

"HOPE"

It's all some people have to hold on to
It's a major factor in our lives because -
What gives us the encouragement to persist, struggle,
and emerge from whatever lows are in our lives
and sometimes a single person's words or actions
gives us that spark that could change a person's life.

Its that I hold Dear It fills me with
Dreams and Visions without it I wouldnt know
how to go on and I want to thank those that
Inspire and take the time to Care.

Sincerely
Jeddy
