Hello World! (Feb 2014)

I hope you all had some wonderful holiday and family memories?

Thank you Albert (4/cpl. Turner) for the great letter and inspiration. Your family move and safe travels will be in my thoughts and prayers. Let me know how it goes? After you catch your breath send me a letter so we can catch-up.

I started a new job mid-December in the Wood working furniture shop. It's a great feeling to have a normal work schedule once again, Mn-Fri., but is an adjustment.

Doing a lot of "homework" to get through the learning curve and finally hit "burn-out" last week. So I've let my brain recover a bit, sorry to not keep up with writing.

My exercise schedule totally flopped, but I expect to pick-up in March once all this snow is finally melted.

Tim + Tricia... thanks for the magazines! I'll write soon and shared them with the guys in the house. Loved reading about all the advances in electric and hybrid car designs. Amazing! So who is going to Mars in 2015?

Until next time.

W. D. C. C. C.
