(2014)

Finally after a year in Solitary Confinement I was allowed to Shop in the inmate Canteen for Supplies. In the past they refused me necessary Supplies like Soap Shampoo and deodorant. Perhaps that they made a mistake as I am still deemed a program failure - Because I continue to Refuse Cell mates.

Many of the people that they want me to house with are murders or Gang members. I will continue to be defiant until they house me with a suitable inmate that is non violent and just wants to serve his time.

I have been subjected to too much in Cell violence in the last 25 years. I can no longer fend off these youthful offenders. So I'll continue refusing direct orders until a change comes in how they house California inmates.
