## (Show Magazine)

I ordered a subscription from a magazine called (Show) But they refuse to send me my copies - They've only answered one request that I've mailed them. In that reply that was over 6 months ago - They said I would have my magazine shortly and they said they'd have all the administrative problems handled. I've learned other inmates are also having the same problem I'm having. I'm wondering if any one else in the free world is being taken for their money too or are they just ripping off inmates. I would like to know if there's someone that can get in touch with this organization to see if they are expecting payment for this magazine. The information is below. I have no way of contacting these people as I don't have access to a phone or a computer. Any help I can get I would be very appreciated. Thank you.
