Dearest Rita,

Hello my dear friend! I'm so glad you got my letter and another is one its way.

Yes, I absolutely love shopping and we would have a blast! If I have any money at all I tend to get out of hand. I remember one time I had planned on buying one pair of shorts and ended up spending about \$900. Oops!

I also love hiking very much. I love nature and beautiful places.

Yes, it really sucks that I have no help on any crocheted work and I haven't heard from my "best friend" since December 9, and have no idea what she's doing. I know she could at least email me sometime. I may take you up on your offer about getting in touch with someone. It's very frustrating to have absolutely no outside help and it can be necessary sometimes--even if it's just to look up a website.

Also thanks for the saying...I keep a notebook full of them.

Much love and hugs to you,

kelly
