

legacy of your ladiness

i wander amid your loveliness,
the legacy of your lady is storied,
a goddess in your gift to bring you glory,
a passage of poetry to toast you infintely,
your legend is dear divinity,-
so poets praise your doveness.

poetry in your portrait,
the sunning of your ballad is beautiful bait,
the song of your legacy sums,
your shine could light the world with it's sun,-
your pleasantness receives no protest----
