Re: AN "OPEN LETTER" TO SCOTT L. HARSHBARGER

Dear Attorney Harshbarger:

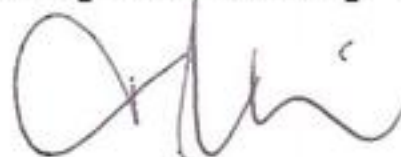

The citizens of the Commonwealth would be further disserved by your continued absence from public service. The time has come for you to put the political betrayals that have been visited upon you by less than scrupulous public officials behind you and recognize that you are the best candidate for the corner office at 24 Beacon Street. The time is long overdue for Scott L. Harshbarger to run for Governor of the Commonwealth of Massachusetts.

Integrity, professionalism, and unbiased bipartisanship has been missing from this state's highest office for far too long. What has also been absent has been courage: the courage to take the steps required to make a real difference. Scott L. Harshbarger's past record is one of strong moral character and true courage in the face of unpopular, but more than required, political and social decisions.

As such this formal call to Scott L. Harshbarger is issued. The fine state of Massachusetts cries out to get her past glory back: to once again be that social and moral leader that made us the shining city on the hill for so long. Freedom and the right to redemption started on our shores, was fostered in our communities, and has been betrayed by modern politicians who seek personal gain above social order. Please bring us back to that glory Mr. Harshbarger.

I ask that all interested parties join this rallying cry. Leave your comments and reach out directly to Mr. Harshbarger. Let us demand that he be our champion! The time is now to return to our former glory.

Very Sincerely Yours,

Timothy J. Muise
