

MADNESS JOURNALS UPDATE

"ShirleyWorld's Finest"

* * * * *

THE BOOT: Lately the highest ranking officla here at the prison has been wondering why the "good ole boy" guards are ignoring her orders with such zeal. The answer ain't hard to figure out. There was a recent switch in "post orders" and the old school abusers want to go back to the days when they could do whatever they wanted. They had Superintendent Hand-On-Son who was personally responsible for helping to shut down all of the highway "rest areas" after he was caught "mentoring" (I guess that is what they call it nowadays) a young boy in his car at one, who with his partner in crime, Deputy McCan't, had the motto of "We don't need no stinkin rehabilitation!" The Boot is not them, and I believe she has tried to do much better (I'm still no fan - she needs to grow a set), but her inability to "bitch slap" these old school fools has destined her to failure.

DEPUTY DENIED-OH: A truck was seen backing into the camp with several 55 gallon drums of human blood. Rumor has it that they deputy has not been getting her share up in the HSU/Sniff and that this Red Cross nightmare was to sate her thirst. One of the really sick men up in the "sniff", who has Denied-Oh's smell of death all over him, has secured compentent legal counsel and has a really good law suit against Denied-Oh and her chorts. Deputy Denied-Oh lied in one of her affidavits, which is par for the course for these suits/gangsters, but this time the lie was going to be easily uncovered as it involved physical characteristics of a "sniff" cell. Shrewd as she is Denied-Oh figured out a way to hide her lies: she had the entire cell torn apart and remodled! Shrewdness like this is fairly unprecedented but Deputy Denied-Oh has been suckin' off the public teet for decades now and she has learned well how to abuse those who do not fall in line with her evil plan. She will raise a glass of human blood to higher tax rates and continued recidivism!

LT. URINE: Tail between her jackbooted legs Lt. Urine has bitter-pill swallowed her "banishment" from being the Queen of clothesline patrol, the Princess of Water Bottle confiscation, the Duchess of trash barrel drilling, and the belle of the abuse ball here at ShirleyWorld. Her previous claims against male guards of sexual abuse will never let her shed that deep rooted anger; manifested as hatred toward all men - prisoners especially, as the truth was that she was a loose woman who thought she could "wear the pants" in a "manage'" situation. It's all her business, and that alone would not her a bad girl (I've known many loose women over the years and had a fondness for them) but what does make her evil is how her self-hatred is visted upon the men she now has control over. Her badge and lieutenant bars are weapons as sure as guns and knives. She disserves ALL women.

DEPUTY McCAN'T: This ShirleyWorld "hanger-on" has not changed a lick in his attempts to deny, deny, deny any sort of real rehabilitation. The other day, while a sick and wheelchair bound prisoner was attending a religious service, Deputy McCan't (the second highest ranking official here at the prison after The Boot) went into that prisoners cell and shook it down. Now why would a high ranking oxygen waster do this? He would do it because this sick, infirm, elderly and dying prisoner is suing him and the other suits here for the mistreatment they are visiting upon him in the cruel and abusive "sniff" unit here at the prison. God bless this prisoner who is "mad as hell and not going to take it anymore!", and God damn this cruel and abusive Deputy who feels it is OK to torture men who cannot fight back. His Karma ship will surely come in in the not too distant future. He "McCan't" hide forever!

LT. Mc-HARDLY: After all his victories in beating up handcuffed prisoners Sgt. Mc-Hardly (he hardly ever fights anyone who is not handcuffed) has been promoted to Lt. Mc-Hardly. This is typical and standard DOC operating procedure. You are rewarded for abuse. It is just like back when Father John Geoghan was murdered by Joe Druce at SBCC. Shortly after that worldwide reported tragic event happened the deputy superintendent and superintendent under who's watch it happened were promoted. This is what these people do. I am certain that someday, after a few more wins over handcuffed prisoners, Lt. Mc-Hardly will be Captain Mc-Hardly. It is the DOC teet suckin' way.

CAPTAIN COWARDLY: The man-bitch has headed for greener pastures. I guess he twitched his way to another institution where they will surely assign him to command the water bottle task force or the peanut butter jar patrol. Cowardly is an old school guy who allowed the system to "transgenderize" him; turn him into a man-bitch-where he would side with Lt. Shameless Peckerwood and that ilk. With more ticks than a Seth Thomas Grandfather Clock he could be the correctional "Miley Cyrus" if he so chooses. Retire Crash your best days are long behind you!

LT. PECKERWOOD: Great news about this fool. His words of "you have no credibility" may be ringing abit hollow now, but for sure they will be ringing hollow in the very near future. After contacting a powerful oversight agency I heard back with some great news. They want to know all about this fool and how he feels he can do whatever he wants in his idiot capacity as a ranking DOC oxygen waster. The investigators want to know all I can provide for them, dirty urines for the state cops and all, and I sure will. Shamless Peckerwood can count on the fact that each and everytime he screws up, and it will be quite often as he is "truly stupid" (as one of his underling sergeants said), it will be reported. The fool picked a dog that bites as well as dog who in the not too distant future will be out of the cage!

DIRECTOR LURKING: She is the "good cop" to Deputy Denied-Oh's "bad cop" and I ain't buying the hype. She is unlike most women in this gulag system in that she is not too hard on the eye, but therein lay her "good cop powers". You see these men in here will dance an Irish Jig and "shuck and jive" when there is a pretty woman around. She only has to slap them once to get em' to talk and then 1000 times to get em' to stop. The Stockholmed Syndromed "lifers" and "long-termers" don't even, for the most part, know they are telling on themselves. The grinder churns the music box and the chained monkeys dance away. The good thing about Director Lurking is that she does not seem malicious, mean or hateful: again a rare trait in corrections. Possibly she does want to be able sleep at night, I don't know, but I do know that she is Deputy Denied-Oh's girl, choke collared to her, and that is all I need to know. She can be ordered at any time to tap Deputy Denied-Oh's barrels of human blood. Raise a toast to the Queen of Death! This makes her "Director of Mistreatment"!

DOS HANDY-SIN: He is the "good cop" to Deputy McCan't's "bad cop". He listens to the rants and raves of the mentally ill, the Stockholmed Syndromed, and then helps them get what they already had coming in the first place: and the men thank him. If I stole \$100.00 from you, and then after great effort on your part returned it to you, would you thank me? I think not, but this is what goes on when men lose all self-respect and self-esteem through DOC control methods. They break us down with petty control measures (if you let them) and then feed you crumbs of turds for which the defeated men offer praise. DOS Handy-Sin might not be a bad sort but he still earns his blood stained sheckles from the abuse of the underprivileged. Submit an application to the Secret Service or something. Don't be McCan't's "yes man" as it ain't nothin' to be proud of (there ain't no pension or benefits when you see St. Peter at the gates!).

I will report on some of the other members of this cast of evil characters in the near future, but for now I have to work on the two active civil actions I have against DOC employees for violating my free speech rights. They may not like what I have to say, and certainly may not agree, but they can count on me keeping on saying it and that they will not be able to hide behind prison walls as they did for so many years. Cyberspace has afforded the "Pen Warrior" a whole new battlefield. We are winning battles in the hearts and minds of people. The TRUTH is getting out there, and someday we will bring down this system of oppression and hopelessness and replace it with one of redemption and true hope. You all deserve safe cities and towns and we, the prisoenrs of the Commonwealth, have a right to be rehabilitated. Viva La Revolucione!
