

## PETITIONING MASS MEDIA ATTENTION

The evidence I was railroaded/framed for murder in October 1982, is irrefutable. Yet for over three decades the evidence of my innocence of any kind of murder has continually been suppressed while I remain falsely imprisoned on Florida's death row. Which I maintain is evidence of a corrupt faction operating within Florida's legal community being guilty of racketeering through collusion to obstruct justice by suppressing the evidence of my innocence.

I have recently begun a Petition Campaign to draw attention to the miscarriage of justice I endure and I am now calling on mass media news agencies worldwide to report on the irrefutable evidence proving corruption within Florida's legal community.

Without a strong influential outcry from the court of public opinion to hear the irrefutable evidence proving I did not receive a fair and impartial trial. The corrupt faction operating within Florida's legal community will succeed at going unpunished for my premeditated murder.

This corrupt faction must be held accountable for their crimes against me and others. Since the evidence proves they are guilty of violating the integrity of the law and societies trust!

I now contend it is the responsibility of news agencies worldwide to report on this public indictment through bringing it before the court of public opinion to rule on...

Please sign, and bring to the attention of others my petition's on ([change.org](http://change.org)) to help me successfully bring an end to the over three decade long travesty of justice I endure.

Thank you,  
Mike Rose
