

# The "N-Word" And The NFL's Announcement Banning The Use Of The Word By Players & Staff

What's Really Behind The NFL's Recent Announcement To Ban The Use Of The Word "Nigger"?

And honestly, what impact, if any, will it have on the players and NFL personnel who are the immediate subjects of the ban. I, personally don't see it having any significant or truly meaningful impact on curbing the use of the word. As most of us realize "Nigger" is has become a household word period, what is. Sherry Underwood, comedian and talk show host readily admitted during the talk's segment on 2/24/2014, that she use the word "Nigger" quite often. Underwood even went on

to state that if she were subjected to a ban on using the word "nigger" it would adversely affect her social life. Wow!! I wasn't that surprised by Underwoods comment because in some people's minds the word takes on different meanings based on who is using it. To that, and those who think like that, I say bulls\*\*\*.

The word "nigger" has a long, vile, venomous, and bloody history, and it doesn't matter how many black NFL players, black rappers, black comedians, etc., etc., use the word, or believes it's a cool

cute or socially acceptable word, will change the history that comes with "Nigger". I do not use the word, period!!! Some of us must set the example to be followed.

What trips me out about these very same individuals who use the N-word constantly is that they claim to be offended when Paula Deen, "Dog" The Bounty Hunter, Madonna, and the long list of other celebrated personalities have said "Nigger!"

If you ARE reading this share your thoughts on this with me and the world. Its important to hear your thoughts because it goes far beyond the NFL's locker room and sidelines.
