Dear mandysavage,

Thank you so much for transcribing my post to CJP. It proved very helpful to me as CJP was able to get me the information I needed.

Are you able to get involved in a deeper way? What I could really use is someone to make 30 to 40 copies per month of single page communications letters CURE-ARM will be using to promote some activities. I can assure you that I would not overburden you with requests and the copies would be single sided, black and white, letter format materials. Not too costly. Whatever you feel you may be able to do would be awesome. Let me know.

Thank you again and I truly hope to hear from you soon. (Please contact me via "snail mail") I am,

Sincerely Yours,
