Has the world gone crazy in Sensationalism?  
Everything is about appearance - A Competition that  
Breaks hearts and Shatters homes.

You hear so much about Lesbians - I don't Really  
Understand why the explosion has become a norm in our  
society. And I don't know how much is to Blame on shows  
like "Jerry Springer" - I do know that he's made many women  
feel comfortable to come out in the open with feelings  
on thier sexuality. I'm 52 years old - I really don't get  
it - But it hurts like hell to see a Beautiful woman  
with another gal. Is there Causes that make women  
seek the gal pal companionship? I know men can be  
Pigs, mean, and many undesirable traits - I'm wondering  
now 'is it just a temporary thing caused by a BAD  
relationship. Or is the Physical attraction the cause  
for Lesbians. I would really like to understand this  
And would encourage Lesbians to enlighten me as  
to why we have a huge population of ladies liking  
ladies. It Suddens me to think males caused any  
part making females to seek affections from  
Gal Pals. BLog me to enlighten me - It Suddens  
me to think there won't be a woman out there  
for me when I Parole,

WELL Charles Manson is back in Solitary Confinement again - facing more criminal charges for alleged activities in the Prisons Visiting area. He is now in the disciplinary section of the building. I'm housed in - He's "3" cells away from me. He is signing other inmates drawings, so that they can be sold on the web site - Do not be fooled - Charles Manson does not draw - So use caution if art is signed by him - you can bet he is not the artist. Cons know his signature is worth a lot of money when it is accompanied by something else. The only thing Charles does is sing the blues while playing a guitar. Charles is old and feeble - still acts like a fool - like he's some weird celebrity. I wished I had access to other webs - But I don't - so can't alert others to fake art - Lucky even to have a generous group that allows me to Blog - I Love to hear your responses. Thanks for your kind comments...
