## "mail suspension" Threats

The united states Constitution is about as valuable as a sheet of toilet paper here in the state of Florida's prisons. Cause unless you have an attorney, to step in the courts, and protect those so called Rights, you might as well wipe your butt with it and flush it. And that's just the way it is, like it or not.

I'm being threatened with mail suspension. Where my friends can not write me, and I will not be able to write them. No birthday cards, no Christmas cards no get well, or sympathy cards, nothing!" Why? Because of my blog. And the fact that Classification doesn't like what I'm writing, so their going to write another Frivolous Disciplinary Report (DR) so they can suspend my mail for 6 months. I've already been warned. I don't know what I wrote, that has them coming after me. All I can do is hope that warden Andrews honor, integrity and ethics is stronger than those in Classification. Those who have survived and remain from warden Barry v. Reddish's unethical Criminal Admin. six months no mail, not for the violation of a state or Federal law, but for writing, expressing my feelings and views, which is a so called First Amendment Constitutional Right to Freedom of speech. Not in the Florida prison system!" The right to correspond with family and friends not in Florida!!" I'm ashamed of the ACLU!" I'm ashamed of the united states Constitution and the fraudulent facade that it portrays of equal and human Rights!!" America, where we're suppose to be better than that. Well clearly we're not! Repressed speech, ion is doing with me. down, it's not in be bullied. never do need alot of about these

that's what Classification I'm not going to back me. I don't like to have, never will. I people complaining threats that are

going to become actuality, with the Frivolous retaliatory  
D.R.'s From Classification, and the hold over's From warden  
Barry V. Reddish's unethical Criminal regime.

I need people to go over to the Florida Dept of Correct-  
ion website and get the e-mail For warden Diane Andrews  
and complain about this, and contact the ACLU and  
issue a complaint that civil liberties are being  
violated here in the state of Florida by the Dept  
of corrections.

We need some change. Warden Andrews has weeded  
the majority of the Criminals out of this Admin.  
But there's still too many hold over's, From the days  
of Barry V. Reddish. And here I am, suffering threats,  
at the hands of these holdovers. Warden Andrews  
I need your help.

God bless  
In Peace + Love  
Bonnie
