

What Martin Luther King accomplishments
did for the lives of Americans

Martin L King Jr showed people in the US and the World that when you stand up for what you believe and know to be right for humanity, low life cowards will make it their business to punish & destroy you. And they will enforce and teach hate to their children to perpetuate negativity. Dr King showed people that when they stand for something they will be less likely to fall for anything like "Wait" and sit down be patient which in fact translates to "Never" will you be allowed to stand. Dr. King showed people that there is no alternative but to stand and be heard and do something other than continue to remain seated and silent. He showed people that there comes a time when the cup of endurance runs over and people oppressed, exploited and abused will no longer accept being treated as inferior because of their colour, gender, or financial situation of being poor and have not. Dr King knew that invariably the one who raises their head above the crowd is most likely to have it cut off. But he refused to betray the peoples trust placed in him. The people who maintain the small voice of conscience with an American psyche walked off from reality by cosmetic material distractions, drugs + porn. I'm imprisoned in a CDC Facility and am one of many people who learned from Dr. King to appreciate the meaning of the following story and its application to our lives.

Bill W Sinclair in Louisiana's Angola Prison for thirty 7 years serving a sentence for killing a store clerk was offered the chance to buy his freedom for \$5,000 in a pardon selling scheme run by the Warden, Governor and guards at the prison. He considered the opportunity and he knew others who had paid their way out. Sinclair spent half his life struggling to atone with weight & become a moral man. Sinclair went to the FBI and exposed the pardon for pay scheme. The Warden, Governor + several guards went to Federal Prison. Sinclair remains imprisoned in isolation with additional time on his sentence for blowing the whistle.

Mr Sinclair found a way under discouraging unbearable circumstances of replacing fear with truth. He made a sacrifice and it cost hard but conditions in the prison improved drastically for all imprisoned individuals.

Dr King showed people that when they speak truth to power and engage in non-violent direct action protest to call attention to abuse + corruption the hidden tension authority mask is revealed for all to see.

Dr. King showed me to never be deceived that the Rich + wealthy will allow their wealth to be voted away.

This trend will continue as with the protest culture.

A Man, a Doctor, a Reverend, a political activist, a Rule breaker, a King
