REQUEST

Check here if this is an informal grievance

The issue, for which I'm grieving, is the practice and utilization of leg irons/shackles, which are causing injuries, deep cuts, sores and scarring, yet no medical examination, or injury/incident reports are being conducted. I currently have sores and scarring as a result of these shackles. IF the practice of utilizing shackles is to continue, the following steps should be taken, to insure the wellbeing and safety of both inmates and staff, from such infectious diseases as Hep C and HIV

A) staff members will examine inmates ankles for any injuries, as a result of the use of leg restraints (for broken skin, blood ect.) B) IF injury is detected, inmate must be seen by medical, and an injury/incident report must be written, and the injury must be documented, photographed and treated. C) upon detection of broken skin

All requests will be handled in one of the following ways: 1) Written Information or 2) Personal Interview. All informal grievances will be responded to in writing.

RESPONSE

DATE RECEIVED: 3/21/14

Capt. Jactowski

Inmate Clark, leg irons are made, to fit all ankles. Staff are trained in the proper application of leg irons. It is your responsibility to inform the officer present if you have injured yourself due to incorrectly walking in leg irons.

[The following pertains to informal grievances only:

Based on the above information, your grievance is DENIED. (Returned, Denied, or Approved). If your informal grievance is denied, you have the right to submit a formal grievance in accordance with Chapter 33-103.006, F.A.C.]

the leg irons/shackles, shall be sent through a sterilization process to remove any microscopic presence of blood that may contain HIV or Hepatitis C blood. (For which can live outside the human body for up to 24 hours)

This is a serious issue, dealing with the health and safety of both staff and inmates, and a CCD issue, dealing with infectious diseases. For these reasons this grievance needs to be approved, and steps need to be taken, for safety and health of both inmates and staff. Thank you for your time, and hopefully your help.

The 3/26/14 response tries to put it off on the inmates not knowing how to walk, correctly. Fact is, they rub your legs/ankles until they start bleeding. All of us, have this issue. I filed the Formal Grievance this morning, and stated the fact that it should not be in the inmate's hands to report HIV and Hepatitis C blood on these leg irons. A lot of inmates are mentally ill and are not going to report it. Which puts our health and safety at risk. Anyone can feel free to download this grievance and send it to the SDC.
