Greenpea,

Hello Sis I love you and have missed you. I've thought of you so many times over these years. I asked Debra so many times for your address but she never gave it to me.

I would love to be in your life if at all possible? I remember playing in the back yard with you when I would visit Debra and Alex. My last memory of you is you riding your big wheel as Debra drove Derica and I back to my father's house. I also remember the phone call because that was the last time we spoke to each other "1993"

Ali I would have wrote this sooner but it took me a month to get the letter from Between the Bars. If you promise to not laugh you can go onto this website

www.write2convicts.com and you can see a photo of me. I have one photo of you that Debra sent me about 8 years ago when you visited her.

If you want you can write me at the following address
