

As from a blazing fire, sparks emerge, so thus do various beings come forth from the Imperishable.

— *The Upanishads*

P.S.

in.re. "IMPACT" ... I forgot to comment on the IMPACT mag^s you sent to me. The 28th Anniversary Commemorative Edition (Issue 134 • iasmembership.org), revealing the Majesty & Power of the IAS leading THE CRUSADE for TOTAL FREEDOM, was very encouraging! With IAS sponsored centers in 126 nations promoting Dignity via such flagship facilities as; Criminon.org working in more than a thousand prisons; 334 chapters of The Way To Happiness (twth.org) Foundations the world over; And a thousand plus Centers of Applied Scholastics.org in 70 nations, all truly make me stand in awe and applaud those resolute Paladins who've helped to make the 11,000 Churches, Missions and Groups a reality of Scientology.org. Bravo!

The thing that brought tears to my eyes tho was all the work being done by the Citizens Commission on Human Rights (cchr.org). Their campaigns of enlightenment, protecting populations from Psychiatric abuses stupifying generations with psychotropic drugs world wide. I wish that I could watch the DVD documentary THE AGE OF FEAR - PSYCHIATRY'S REIGN OF TERROR, but I'm glad it's out there exposing the Truth, just the same. And last but not least, the largest Truth About Drugs in history, was brilliant! Since I have no way to visit: drugfreeworld.org, I wonder if someone will send me a copy of the booklet. For The Love of Truth!
