my Guide

Rydelae E

Got a hole in my heart, only one woman can repair
the one who had my back, the one who's been there?
No other love will do, no other love can compare,
no other love, will carry the burdens she bears.
There's no woman out there, that can fix this tear
there's only one who makes me stutter when I speak
There's a lot of women out there, but mine is a freak,
and at the same time, makes my heart skip a beat
she's been there, through all the cuts and scrapes,
the one who needs my love, we both anxiously wait,
until the day, that I can finally hold her close,
to my heart! her kisses are missed the most.
The woman I'm talking about, got me sprung like a snail
she's the same person, that's the woman of my dream
This woman is my miracle, by the way I have 2!
it's very hard and rare, to find a woman like you
my love soars high, and when it's all said and done,
I need you in my life, because for me! you're the one
Just being there for you, cherishing every moment,
we control our own destiny living life like we own it,
I'll love you in the morning, love you in the night,
love you in the day, can't wait to hold you tight.
There's nobody else who comforts me, nor salvage up my pride
without you I'm lost! There's no other who can be my guide
