I Luv U more!

Bydellan G

she loves me! she loves me not!  
having me so sick, got my stomach in knots.  
cant sleep at night, my body way too fatigued,  
cause I think of what I'll do, if you ever leave  
your love is like a drug, to help relieve my pain  
your love is a miracle, something I cant explain.  
The pain Ive endured, was way more, than I could.  
dont want you to go, I cant have another heart br  
on my mind all day, migraines have my head a.c.  
I know you'll be there, know you'll patiently wait  
you say you love me, but not how I love you,  
your're not use to my love, it's love you never knw  
my love is different, my love makes you smile,  
my love dont make you cry, my love's a different st  
my love dont hurt, but baby my love can heal,  
my love you can cherish, it's any woman's ideal,  
my love is just for you! no other woman deserve  
you looked past my downfalls, for you know Im not per  
I love your entire being, it's everything in you I do  
we both know that Im the one, who luv's u more.
