## "CHANGE"

Dog Fighting - What about inmate Fighting. Cause we've seen this happen time and time again. Corrupt Correctional OFFicers, bored, Pit's one inmate, against another, to amuze themselves and pass time. The rewards maybe street Food, extra Food, Pornography, extended priviledges. And From what I hear six STAFF members are currently on Administrative leave pending an investigation into this illegal activity taking place here at JCI. Which is another example OF why personalized audio and video cameras need to be placed on correctional staff.

Right now, I have to worry about reprisal, retaliatory Disciplinary Reports (DR) and such just for being vocal and speaking out against such corruption. I know their reading my blog, I know they dont like me speaking out against the death penalty, but what they hate even more is me speaking out against the corruption, misconduct and illegal activities that take place within, what is, the Florida Dept OF "Corruption". Cause the FDOC is just as corrupt and unethical as they come. I want to change that. We need prisons, but we need prisons that are not torturing people and mistreating them. And the only way to bring about this change, is by raising the bar, requiring correctional staff to take mandatory Polygraph exams and wear personalized audio and video recording devices. It's the only way to keep unethical law breaking men and women out OF FDOC employment. Just this week an FDOC OFFicer was arrested for an under age child. one OF our OFFicers is in the Bradford

County jail for murdering his girlfriend. Another one of our old sgt's is in prison, for molesting his two daughters, then tried to hire someone to kill the daughters and his wife. It's just way too easy for the criminal element to be employed by the EDOC. Many counties require polygraph before they will hire people to work for the city. My mother, in the 1980's was required to take a polygraph before being hired. Here in the EDOC, not only do we have humans in charge of other humans, but we have public safety coming into play. The technology is at hand to secure these prisons, to ensure the public is protected. These measures need to be put into place here and now.

The reason I want this, is because I want professionalism. Rules of conduct followed. But we need a Bill put before the House, in order to bring about this change. Pray this change will come about.

God bless you.

In Peace & Love

Jannie
