Well, it turns out that I'm a rat & didn't even know it. In the federal prison system, even trying to get prison staff indicted for abusing prisoners is deemed snitching. As you can see from the accompanying post, that's exactly what I am doing.

Believe it or not, this could get me killed. It'd be the White gangs who'd do it, specifically the Argan Circle, as that's what I've been a member of for more than 12 years, (a major reason WI kept me in its supermax for so long).

So, S.I.S. (special investigation services) here did have a valid reason for keeping me in S.H.U. If it wasn't due to this, it was due to my suit about being forced to cell up with Blacks: 'Gangster Disciples, specifically) in WI, or saying my brother must have done it (after he testified against me, saying I did it with him) to a Pre-Sentence Investigator. It doesn't take much, far less than it'd take in the WI prison system.

What this reveals is why WI suddenly sent me here - to get me done in. What it means is that I'll be sent to another fed. joint, one for rats & gang drop outs, which - except for my wounded pride - is great! No more political drama, having to be on super alert for some gang member looking to stab me because of what another A.C. member did to him or his homeboy; no more being dismayed that 90% of my bros. are dope fiends, a threat to the White race (that they are supposed to be struggling for), sheisty, committed to suicide by crime. Because I'm not worthy of such association. L.O.L!

I'm gonna rat all the more on prison staff who abuse prisoners! ☺  
And, when I get to the next spot, I'm gonna enjoy the sunshine, get into my studies, do some paintings, because I won't be stuck in seg. anymore for being an A.C. member.

I'm kinda relieved, a lot. More on this next time.
