

\* \* \* N O T I C E \* \* \*

My new "series" for reporting the true madness that goes on here at ShirleyWorld begins today. It is called;

ShirleyWorld Updates:  
"Let The Bullets Fly!"

This new series will report on the tragic folly that is this fully failed state prison. The average citizen cannot fully grasp how the current system of "corrections" in Massachusetts is truly a system of "corruption", compelling many to call the prison system you pay for: The Department of Corruption.

You would not believe how far too many of these guards here behave, not all of them, but I have to say the vast majority. They are some of the laziest, most petty, deeply flawed individuals I have encountered in my days on the planet. It is a product of the work; keeping a man in a cage for a living depletes your soul.

Never forget that the purpose of my blog is to educate people in an effort to work toward commonsense public safety/criminal justice advancement. Part of my advocacy has always been to expose the abuse and insanity of those folks who man this ship of fools that is the DOC. You see these people rely on secrecy, on being hidden away behind prison walls and razor wire. They also count on the prisoner being powerless and voiceless. This blog works to give the prisoner power, to give the prisoner a voice. They cannot hide from me. I will report the abuse and shout their failures from the rooftop!

My hopes are that you enjoy the new series. It will have many of the same characters as the previous two (2) series and I hope to add a few more. The "fan favorites" will always make the column as long as they keep abusing their power. My "scouts" are all around the prison listening to their conversations. The "con loving" guards are telling my sources the juicy dirt each and everyday, and my eyes are always open to their actions and my ears open to their diatribes. What we see, hear, and uncover will all be reported on the blog. Please keep reading. Please leave comments. (If you work for the department of corruption please know that your comments will be immediately forwarded to the AG's internet taskforce as a CORI violation).

Thank you all for reading the blog. TJM June 5, 2014

ShirleyWorld Updates:  
"Let The Bullets Fly!"  
Chapter I

\* \* \* \* \*

**- BIG VICTORY FOR LT. PECKERWOOD: LOCKS UP 80 YEAR OLD MAN**

In typical passive/aggressive George Custer like leadership the fearless Shameless Peckerwood locked up an 80 year old prisoner for trying to liberate a bag of ice from the HSU. Pundits are still pondering what was colder the ice or Lt. Peckerwoods heart. Time for another urine test!

**- MIDGET ERADICATES THE SCOURGE OF WINTER HATS WORN IN SUMMER:  
PUBLIC SAFETY SURGES INTO THE FUTURE**

Standing on his soapbox, so he could look men in the chest, Sgt. Young-un has declared that as of June 1, 2014, he will no longer tolerate prisoners wearing their wool hats. PETA reports that sheep all over North America are rejoicing. Many of the sheep Sgt. Young-un has had a close personal relationship with. Your streets are surely safer when men are stripped of their climate inappropriate headwear. Progress marches on!

**- FORMER "IPS" STAR URGES "MAGGOTS" TO PUT UP WET PAINT SIGNS**

CPO I, Coach Woodhead, was stained when he leaned against state paint. Many think it was the substance he altered urines with when he hwas a star member of the IPS team at Gardner. Woodhead exclaimed, "These maggots don't even put up sign!", but when he was confronted by a tough con he bitched up quicker than Lassie in the Spring. The hard working Coach usually gets paid for watching paint dry so the punishment fits the crime!

**- CRIME IN PRISON SOARS - SUPERINTENDENT'S INVESTIGATOR KEEPS UP**

Lt. D. "Awe" is in top form even in the wake of the increasing crime wave in ShirleyWorld. One prisoner actually had the unmitigated gall to offer to help another send out mail! Lt. Awe was right on top of that, afterall if you let this go the next thing they will do is help each other with medical needs or education problems. Lt. Awe left a stellar career in Internal "Affairs" behind to "take a bite out of crime" here at ShirleyWorld. Damn the suboxone torpedos, full speed ahead for the mail detective!

**- AFFIRMATIVE ACTION COMBINED WITH GENDER EQUALITY AND IMMIGRATION REFORM  
SAVE THE MEDICATION LINE AT SHIRLEYWORLD - PFIZER STOCK SOARS**

CO "Desire" has certainly solved all the problems in the med line at ShirleyWorld. This "World Class" guard was hired under every special consideration known to the process; she might not be the most qualified but she is certainly the most "certified". He native land of Haiti applauds as she turns elderly men away from the medication window. Pfizer stock soars as she has forced them to use the illicit med line on the walkway. Viva La Suboxone treatment center! (a/k/a ShirleyWorld)

**- SHORTEST REIGNING "SUPER'S INVESTIGATOR" NOW TRAINING NEW RECRUIT CLASS  
TO "WALK TOUGHEST BEAT IN THE STATE" - TAX DOLLARS EVAPORATE**

Former ShirleyWorld Superintendent's Investigator, Sgt. Fiend-ly, is now working to train new recruits to the job. He had been removed from his previous position for authoring false reports about his buddy CO "Smyth's" improper "pat down" of a Nordic/Aryan female co-worker. Smyth copped a feel and Fiend-ly covered it up. In typical DOC wisdom they now have Fiend-ly training the new employees. Makes sense to me! They follow behind this Pie-eyed Piper of ShirleyWorld like lemmings off the stupidity cliff!
