

I WANT TO DIE
BUT I DON'T WANT TO BE DEAD

Surely, some of us have felt this way enduring extreme trials and tribulations. I don't think any of us have ever wanted to be dead, even those who have committed suicide. What we want is for our troubles and problems to die.

EMPATHY

For those who do not - we must learn to feel and share in enduring a measure of misery suffering and anguish for those who are overwhelmed and distraught

SELFISHNESS

We do not live in this world nor can we survive alone. We are one humanity and we ultimately need each other even if you are rich. To neglect or abandon one who is in need - is the same as polluting or allowing the pollution of the environment of which will eventually affect us all. And those who are abused, neglected and abandoned - routinely appear in the news having injured and killed many people. Unfortunately you'll either teach or care about the other or bear with some of their rage.

Many of us have been taught that sharing is caring. Similarly we should also know sharing isn't always a monetary figure. It isn't always money that you need to expend to share your caring

BUT REMEMBER ALWAYS,

IN THIS PLAY CALLED LIFE, DON'T USE ALL
FOR YOURSELF

--- help THE PERSECUTED,
POOR, ELDERLY, WEAK AND THE VICTIM OF
OPPRESSION BECAUSE

THEY ARE YOUR BETTER
FRIENDS

IN DOING SO, IN THIS STRUGGLE
CALLED LIVING YOU WILL FIND AND BE
LOVED MORE
