Dear Elizabeth-Anne

Greetings! I received your comment, yeah bureaucracy at it's best, This DR. should have never been written. And thanks to my Friend Anne, in N.Y. it finally was over turned and thrown out. The woman who placed all that up on Angel Fire, I was told she passed away, so that site will be up forever. This was a vindictive DR. And I know that Classification, and the Florida Dept of Corruption is not at all happy with me posting these Request slips and grievances, and they will probably come after me again with another vindictive DR. But I believe in trying to bring about change, not just sitting around complaining about it. Which is what most guys do.

Thank you for your kind words and best wishes. Please take care.

In Peace + Love  
 Bonnie
