

ShirleyWorld Updates  
"Let The Bullets Fly"  
Chapter IV

by Timothy J. Muise

\* \* \* \* \*

- IPS MIRACLE! TURN COFFEE WATER INTO "URINE" / VATICAN INVESTIGATES

A true modern miracle happened here at ShirleyWorld and Bishops from the Vatican are investigating. IPS guard CO Devil's-Ho took a urine sample from a suspected drug using prisoner. That savvy prisoner had a vial of "coffee colored water" down his underwear just in case he was called for a urine. The prisoner poured this into the sample cup as he pretended to urinate. Low and behold when IPS guard Devil's-Ho tested the "coffee water" it had turned into a dirty urine sample: it tested positive for suboxone. The initial Vatican reports indicated guard Devil's-Ho is working for "the other team" but they are still amazed at how this mortal man turned coffee water into urine??? This highly trained professional would never tamper with a urine test, just like O.J. would never kill his wife!

- CRIMES OF "CONVERSION" ALLEGED IN PROPERTY / LT. OH-YEA DENIES CLAIMS

Lt. Oh-Yea (they call him Lt. Oh-Yea as when anyone is asked if he is a moron they reply is always: "Oh Yea!") has been accused of crimes of theft under the theory of legal "conversion". Lt. Oh-Yea told a prisoner who was seeking a loaner fan during the humid heat that the next "few fans are slated to go to officers." Lt. Oh-Yea makes men sign forms which indicate he will "dispose" of their used property and then Lt. Oh-Yea "converts" this property into "institutional property" through this illegal process. A concerned deputy was overheard saying, "These cons have no rights. They are lucky we don't take the fans right out of their cells and use them." An old con with dementia was heard mumbling, "I don't care what the "fans" think." Lt. Oh-Yea's crimes have been reported to the Office of the Inspector General to which Lt. Oh-Yea replied, "I used to watch Inspector Gadget in High School during lunchtime as I could never eat; they always took my lunch money." New Hampshire's bullies ate well.

- BEAR SEASON OVER (PERMANENTLY) CO BIRDS-EYE HUNTS URINES

After being convicted of killing a bear illegally, through DNA testing, CO Birds-Eye is now hunting urine tests here at ShirleyWorld. This skinny troublemaker (not a shift passes where he does not run his wise mouth and only because he knows he has a "bitch button" by his side) was overheard saying, "Everyone who pisses for me pisses hot." CO Birds-Eye smiles that perverse smile when he "strip searches" men for these tests. He stated, "Its just like going on honeymoon after honeymoon when I see them naked." He could not be trusted with a hunting license but the DOC trusts him to conduct sensitive urine tests. CO Birds-Eye is not smart enough to know that cons are documenting all his actions and plan to forward them to the sentencing judge/probation. Hey Birds-Eye, Smokey The Bear called he has your "bitch button" between his legs!

**- TOO MANY UNITS CALLED TO CHOWHALL FOR THE 100th TIME / DEPUTY FINALLY NOTICES**

In their ongoing entertainment practices the guards once again called too many cellblocks to the chowhall at one thime in their blatant attempts to spark a riot. Numerous complaints have been filed with The Boot's administration about this ongoing abusive tactic but all were declared to be "unfounded" (just like she said about the rape at Framingham until the poor girl came up pregnant). This past Friday cons were lined up outside the chowhall past the mailboxes when Deputy Denied-Oh herself came by. She could not pass as her "wide glide" keester could not navigate through the crowd. She toungue-lashed Lt. Nugget (he's a real gem) who was basically an innocent bystander. Men work to have the chowhall closed through the DPH and the office of the IG. "If they want to pack us in there then we will get that shithole shut down.", one fed-up con was heard to say. Deputy Denied-Oh responded to the complaints with a glaring, "Let them eat cake!"

**- DISCIPLINARY GUARD WORKS CHOWHALL / INEPTITUDE RUN UP FLAGPOLE**

Our distinguished disciplinary guard here, Lt. Havent, had to fill in at the chowhall due to the absence of his brother oxygen wasters at "staff training". In typical overpaid/underskilled fashion he screwed the whole process up until another highly paid lieutenant came over and showed him how to do it. "Just call as many units as you want. If guys can't find seats or have to be lined up outside like cattle they might fight. We can jump in and claim an injury and go out on industrial accident.", this true coward who just ran from the Max with his tail tucked between his legs was heard whispering in Lt. Havent's ear (with a little too much tongue I might add). Possibly this disciplinary guard was thinking about new ways to deny proper relevent discovery requests, deny witnesses, reject affidavits, or interject himself in a hearing as if he was the DHO. He cherishes his M-F, 8 to 4, gift too much to do his job right. In the quiet of the night, when the lights are out, he knows who he is: a state layabout and dishonest pretend cop.

**- OLD MAN LOCKED IN DEPUTY DENIED-OH'S "BUBBLE" / GIVEN "TREATMENT"**

An old and dying prisoner, Bob D., was locked in Deputy Denied-Oh's "Observation Bubble" so that he could be given "treatment", and boy "treatment" he got. Medical and Security Staff, led by Sgt. Bitch and Nurse Ratchett, refused to give Bob his sheets, towel, or pillow case until he "took his pills". Bob was unable to speak as his tongue had swollen so large that he could not swallow a pill on a bet. Medical staff mocked Bob as he has been forced to tape his eyelids up because his muscle failure makes it impossible to keep his eyes open. CO Hands-In-Sin made jokes about Bob's infirmity and threatened to take his sheets back again if Bob did not "stop being a wise guy". Deputy Denied-Oh was reached for comment and she assured all concerned that Bob was getting "all the treatment he needed." boy ain't that the truth. Bob has

hired an attorney and the "spy" operatives in the sniff are feeding the proper activists with the required information and accurate reports of abuse. Sgt. Bitch and Lt. Peckerwood are now the Dr. Kavorkian and Dr. Mengele of corrections. Please pray for Bob D.

**- GUARDS FIND ANOTHER WAY TO "DOUBLE DIP" / TAX DOLLARS LINE POCKETS**

Guards here in the Commonwealth recently contacted fashion designer Tommy Hilfiger to see if he could assist them with actually lining their pockets with state taxpayer dollars. This increase in fluid cash is a result of their now being paid for "training" here at MCI Shirley at the same time they are working a "swap shift" of another officer. "You have to hand it to these louts, they can really be creative thieves.", said Mr. Hilfiger. "I never actually thought about sewing actual bills into linings. It's a really marketable idea." State Auditors have been made aware of the situation (God bless free speech), but for now the cash flows and the "training" continues.

More To Come...
