

**SHIRLEYWORLD UPDATES:
"Let The Bullets Fly!"
Chapter III**

by Timothy J. Muise

* * * * *

- GUARDS HAVE HIGHEST SUICIDE RATE IN LAW ENFORCEMENT / SHOCKING

It has again been reported by the U.S. Justice Department that guards have the highest suicide rate in law enforcement. This shocking news stunned many Mass. DOC staffers who attended Captain Melt-Down's recent funeral. Who would have known that keeping men and women in a cage for a living would cause mental health issues? Rocket scientists ponder the profundity of the issue while undertakers prepare the coffins.

- CONTRABAND "BOWL" SPARKS ASSAULT / SOBRIETY TAKES A BACK SEAT

One of the stellar, upper echelon guards here at ShirleyWorld made what can only be characterized as a "toughest beat in the state" pinch this past week. In between drunk driving arrests this "Super Cop", CO Scumlafia, apprehended a suspect who had what the arresting officer portrayed a "contraband" bowl. This Barney Fife of this correctional Mayberry used his one bullet to seize the threat to security; but then had it bitch slapped out of his hand. The prisoner has been charged with assault as he bruised the overly inflated ego of this Whiskey breathed fool.

- HOLLYWOOD SEEKS NEW REALITY SHOW - LT. URINE AUDITIONS

Producers from ABC recently auditioned one of the DOC's Finest for a new reality show. "Keeping Up With Kim" would chronicle the life of one guard who consistently has to be reassigned to different posts as she cannot put aside her anger and self-loathing in order to fulfill the duties of any one post. Her life on the street, seeking more and more child support from her poor paramour "Mugsy" while he pours more and more Budweiser on the problem, would also be featured. Interludes with married men and rants about "prisoners rights" and "visitation procedures" would make for truly gripping television. The show's sponsor is rumored to be Midol.

- DOC TRAINS NEW RECRUITS / HEARTS AND SOULS LITTER COMPOUND

With a never ending corrections budget squarely in hand the DOC has begun training another class of recruits. Environmentalists are concerned about the impact the sacrifice of their hearts and souls may have on the local wildlife. "These kids should not fear PTSD as if they joined the military. We don't have that problem in the DOC as you must check your humanity at the door when you work in corrections.", said training officer Sgt. I. Will Damagem. Turnkey 101 and Nap Time 201 classes begin soon.

- 50% OF SEXUAL ASSAULTS IN PRISON CAUSED BY GUARDS / Union Impressed

ProPublica reports that 50% of all sexual assaults in prison are perpetrated by guards. Union officials here in Massachusetts contend that this can be a positive statistic as they believe in the Marvin

Gaye program of "Sexual Healing" for prisoners. "It saves money on prison programming and personal prostitute use.", said MCOFU Union Official Sgt. Dick Forcer. Sgt. Forcer went on to say that condoms paid for by the "Wellness Committee" will be passed out at next years "Guard Appreciation Day." "If there gonna have sex they should be safe.", said Sgt. Dick.

- UNDERSTAFFING CURED: SOLUTION? PLACE TWO \$90,000.00 CAPTAINS ON SHIFT

The all knowing and insightful leaders in "The Boot's" Office have solved the "understaffing" dilemma which they claimed has resulted in the shut down of buildings and rehabilitative offerings. The Boot's solution: Place two capatins, instead of one, on each shift. Last evening we had Captain Stu-Pid and Captain McJaw (he opens beer bottles with his jaw) working the 3-11 shift. The cost to the taxpayer per year, about \$180,000.00, is not a problem says The Boot as she plans to donate some of her free time at the homeless shelter in Wellsley. "Not too many homeless in that area, but if there is even one I'll help out.", said the Boot. The question still remains: Why was the school building still closed even though two captains staffed the shift? The think tank, "Guards are Us" may do a million dollar study.

- DOC STAFFERS ATTEND "MANDATORY TRAINING" THIS WEEK / SORELY MISSED

Many of the regular guards here at ShirleyWorld attended mandatory training sessions. When asked what some of the courses offered were a high paid official quoted the following; "False Report Writing", "Tampering With Urine Samples", "Private Sexual Interludes on Shift", "The Art of Toilet Paper Thievery", "How to 'Four-Point' restrain the Elderly", "CON Hatred Simplified", "Understaffing Propaganda 101", and the ever popular "Shift Swapping, Comp Time, IA's, and Other Free Money". Union Officials, in between belly slithering, called for two more training programs to be added: "Safe Sexual Assault" and "Make It Look Like a Suicide". The jury is still out on those two offerings. When reached for comment Deputy Denied-Oh said, "We pride ourselves on having the best trained professionals in the country." Hard to argue with her.

- KITCHEN GUARD HAS MILD HEART ATTACK / SOMEONE GOT EXTRA SCOOP OF RICE

The ever diligent "Food Surveillance Task Force" here almost lost one of its most valued members this past week as CO Burrito had a mild heart attack after he witnessed an emaciated suboxone user from the CRA program hornswaggle an extra scoop of rice out of a highly paid kitchen worker. CO Burrito as as shocked as anyone else at this mishap as he was certain he did not even have a heart. "In my native land we live on 3 grains of rice and a small bowl of cockroach stew each day. I can't let these felons fill up on rice. It goes against everything I stand for." Medical tests

revealed that CO Burrito had kool aid flowing through his veins, which many had suspected, but nonetheless he will be able to be the last stronghold of defease against excess rice consumption again ver soon.

- ADMINISTRATION SUPPORTS "JUNETEENTH" EVENT / HAD PREVIOUS ENGAGEMENT

The Boot's administration offered full lip service support to the celebration of Juneteenth here at the prison. The super said, "I am all for the freeing of slaves as they are one of my biggest clients. Without them who would fill the cells?" Deputy Denied-On also offered some mouth support for the event, "Evea though the Boot and I could not attend we absolutely love freedom for the slaves. I can assure you we had nothing to do with John Wilkes Booth and probaby would have voted for Lincoln if we were able." They both had previous engagements as the MCOFU follies were putting on a "Black Face Review" at the KKK Lodge in Harvard and both had front row seats.

More To Come....
