

SHIRLEYWORLD UPDATES  
"Let The Bullets Fly!"  
Chapter V

by Timothy J. Muise

\* \* \* \* \*

- STATE FUNDS "T-SHIRT TASK FORCE" / TAX FRUGALITY BATTLES JOBLESSNESS

The DOC has apparently received additional funding to expand its "T-Shirt Task Force" to the second (3-11) shift. They have hired a refugee from the Lollipop Kids of Yellow Brick Road fame to enforce the ban on wearing state issued white t-shirts in the buildings which house rehabilitative offerings. A soap box with two telephone books on top was pushed up to the press conference microphone where Sgt. Young-Un declared, "The scourge of white T-Shirts will never prevail under my watch even if I have to jump up and tug at their shirrtails myself!" Deputy Denied-Oh is also using some of the additional overtime funding to enforce this ever so important rule in the HSU. The Deputy was reached in Hades for comment: "Everyone knows that we have to limit the programs and health services we offer and we must come up with creative ways to do so. Tell them they can't wear t-shirts in the Summer and they men will stay at the gambling tables in the blocks; problem solved." PLS was asked to intervene and their Director stated, "Prisoners have no liberty interest in wearing t-shirts." God bless the defenders of the Realm!

- ANOTHER DOC "P.R.E.A." INVESTIGATION / CONSIDERING TOWN NAME CHANGE

Another DOC staffer at MCI Shirley is under investigation for violations of the Prison Rape Elimination Act (PREA). CO Carta-heinous was walked off the property for sexual inproprieties. With so many of these types of incidents occuring here in Shirley the state is considering changing the name of the town to "Stalk-Ton" or "Stalk-holm". Other possibilities were "Love Canal" and "Holden Village". When reached for comment the superintendent, The Boot, said, "Guards are affectionately folk. They can get carried away with emotion. It may seem like an unwanted advance but in most cases the victim was asking for it." The guards union rang in promising to supply all employees with condoms at roll call each morning. The shift commanders will send the troops in each day with a reminder; "Be Safe In There!"

- FUNDING REQUEST SUBMITTED / PRINCIPAL'S OFFICE TO BE BEDROOM

The ShirleyWorld facility has submitted a request to the capital assets office of the DOC seeking funding to officially convert the Education Department Principal's Office into a bedroom for 3-11 shift guards. Lt. McHardly initiated the request as he says it is difficult to sleep in there now as the chair is a bit too small for his corn fed ass. "This should be a slam dunk as everyone already knows this office is our bedroom.", said Lt. McHardly. Converting the office into a bedroom would also eliminate the amount of "sleeper's drool" that had been accumulating on school documents. Deputy McCan't can't find a reason why this should be a problem either. "If you were out all day drinkin, smoking weed, slapping your boyfriend around, or marching in the Pride Parade, you would need a nap during your shift as well. We have been asleep at the wheel here for years. I should know, I'm a lifer." School Principal Ho-guns is on board just as long as they keep Lt. Urine from stalking him any longer.

**- NEW RECRUITS PARADED THROUGH FACILITY / RINGLING BROTHERS MOURNS**

The newest class of DOC recruits, fresh from swearing to sign over their souls at the training academy, were paraded through the facility. reports indicate that Ringling Brother Circus is planning litigation against the DOC as all the freaks, psycopaths, morons, and mental defectives that usually find their way to the Circus of Carnival life are ending up as "highly professional" guards in the DOC. This last batch clearly had a "bearded lady", a "sword swallower", and a whole bunch of "clowns" so we fully understand how angry the circus and the sideshows are over the crisis. We were able to reach DOC Commissioner Spin-Sir for comment: "The DOC is an equal opportunity employer, besides these people are fun to watch!" Lt. Urine has requested to be able to "view" all male recruits for "suitability", while Captain Shebert wants to "handle" all the female recruits to ensure proper "attitude". One circus which was forced to shut down due to lack of potential freaks offered to sell ShirleyWorld one of their larger tents to throw over the whole facility.

**- SHIRLEYWORLD "LIGHT" PLAGUED BY URINE WHIRLWIND / REENTRY DASHED**

The ShirleyWorld "Complex" is made up of two (2) Facilities; the medium (ShirleyWorld) and the minimum (ShirleyWorld Light). In their infinite wisdom The Boot and McCan't decided to "assign" Lt. Urine to the ShirleyWorld Light facility even though she had clearly displayed that she was incapable of any contact with human beings (other than depraved erotic contact). McCan't and The Boot see nothing wrong with assigning a known tyrant to a place where men are attempting to come back to society with a new skill set. When reached for comment Deputy McCan't said, "My children and their children will need jobs. Lt. Urine ensures that men come back to prison and that benefits my family for generations to come." The Boot chimed in with, "Reentry is not as high a priority as staff picnics and appreciation days. I can't have Lt. Urine ruining those so it is "appropriate placement" at the minimum. I trust this addresses your concerns." Rumors have it that Lt. Urine's "ring tone" is Nirvana's "Rape Me": more lawsuits to come!

**- SICK AND DYING OLD MAN RECEIVES DISCIPLINARY REPORT / PUBLIC SAFETY SOARS**

Lt. Havent's final disciplinary report assigned some of the most serious charges in the DOC litany against an 81 year old dying prisoner. After placing this man in harms way by purposely placing young, strung out drug users, with frozen canteen accounts into his cell to prey upon him, the dirt balls now write him a d-report for possessing a "weapon". They fully expected this old and dying man to get robbed, abused, disrespected and possibly raped, or to take their "bait" and turn into an informant. This man of honor rejected all DOC "logic" and did what any real warrior, real man would do and armed himself for the fight. You place a lamb in the lion's den and then punish the lamb because she stabbed the lion in the eye with

a stick. You should see this fool Lt. Havent's as he attempts to act like he is a real cop. He is the shame of law enforcement; the jester of the correctional court, the fool of the Queens assembly and the true idiot of the village! How does this dirtbag sleep at night knowing that he assigned "charges" against an 81 year old man who was merely protecting himself from 20 something predators? We don't forget these acts, and some of us a bullet proof; his power cannot deter us, and he will make a mistake and the "reporter" will be there. Time is on our side! Stay strong my old friend and don't let this evil menace effect your spirit!

- DOCTRINE OF "RESPONDEAT SUPERIOR LIABILITY" IS EXPLORED BY LEGAL MINDS

When an employer knows, or should have known, that an employee was/is "unfit for duty" they are responsible for any illicit acts of that unfit employee while at their place of business. Honorable U.S. District Court Justice Nancy Gertner (Ret.) made this applicable to prison wardens in here ruling in Chao v. Ballista. Reporters here at ShirleyWorld are documenting the activities of certain ShirleyWorld staffers which are clearly indicitive of the "unfit for duty" catagory as when it all goes wrong with one or more of these fools, which we all knw is a matter of time, these reporters are going to make certain that The Boot and her round table of dark knights are held fully accountable. When CO Swiller finally blows her top or when Sgt. Bitch finally steps over the line, we will have it documented. When Lt. McHardy beats his final handcuffed con or Lt. Urine sexually assaults some poor sap, they won't be able to say they did not know as we will report it all. When CO Hands-Of-Sin in the HSU or Lt. Peckerwood in the sniff finally kills one of the patients we will have recorded all of their previous abuse. It is how it has to be. We have to protect ourselves. When you wear the DOC badge you are an agent of evil (and deep down they all know it - not so deep down for some). Legal minds will continue all the possibilties toward protecting ourselves. Trust in that!

More To Come...
