

SHIRLEYWORLD UPDATES
"Let the Bullets Fly!"
Chapter VIII

- MORE "TASK FORCE" FUNDING SECURED / LAUNDRY STRIKE FORCE IMPLEMENTED

The facility has secured more funding for additional "Task Force" operations here at ShirleyWorld. Sources tell us that they may have used the surplus in the Law Library and Programming Funds to pay for these new "Elite Forces" at the prison, but who knows it could also be the proceeds from the prostitution of their souls here! Sgt. Young-Un climbed up the ladder, literally, to receive his appointment as head of the newly formed "Laundry Erdaication Task Force". His first collar came with 24 hours when he seized a bottle of Clorox from a man who sought brighter whites. "He will continue to wear dingy state issues now that I am on the job!", Sgt. Young-Un was heard to say. Regional Task Force Coordinator Lt. Hammond Egger reported that the only problem they encountered was that some of the clotheslines they sought to erradicate were too high for Sgt. Young-Un to reach. We have looked into Dr. Scholl's "lifts" that fit into the jackboot of shorter stature guards like Young-Un. This vertical challenge has been known to result in PTSD as when the union took its trip to DisneyWorld Sgt. Young-Un could not go on any of the rides.

- SHIRLEYWORLD RECEIVES NATIONAL RECOGNITION FROM ACCP

ShirleyWorld received national recognition this past week from the American Correctional Communist Party for its skill and expertise in "Policy Manipulation", one of many catagories covered by the group. "We were very impressed with how they manipulated policy for this upcoming audit; creating rules out of thin air.", said ACCP spokesman Heinrich Himmler, Jr. "They went as far as to convince prisoners that they could not have images from magazines on their bulletin boards. This type of bait and switch deserves recognition.", ACCP spokesperson Dr. Josef Mengele, Jr. declared. ShirleyWorld also received an "Honorable Mention" for their skill in abusing the sick and dying. "They are fairly adept at killing old prisoners but it has been several weeks since they had an actual corpse over in the HSU so all we could give them was an Honorable Mention ribbon.", said ACCP Awards Coordinator Dr. Kavorkian. I am certain these awards will be hung with pride in The Boot's Ivory Tower. (Possibly along with one of Captain Sherbert's Army Men).

- RECREATION "COACH OF THE YEAR" EXPANDS HIS PERSONAL HORIZONS

MCOFU's "Coach Of The Year", El Grande Cabasa Fred has been recognized by the Union for his impressive efforts to "Expand his personal horizons" here at ShirleyWorld. "We saw how Big Head could not make it as a guard, caseworker, or brown shirt, so we are so pleased he is branching out in his latest role as a rec coach." Deputy McCan't commented. El Grande has been doing everything in his power to get prisoners "lugged" in his ongoing charade to look like a real law enforcement officer. He pleads with Lt. McHardly to lock up a con who gave him crap, he gets pissed and writes a

"incident report" when a con tells him to take a hike when he asks for styrofoam cups from the Church's supply. He has turned guys into the IPS because they were "acting strange" (now ain't that the pot calling the kettle black) and pats guys down like they are flying from Palestine to Israel. We understand that he gets it from both side, both cops and cons make fun of his borderline Down's Syndrome personality, but pick a job will ya Big Head! Be a Rec Coach, pass out balls (cause you lost yours long ago), and quit tryin to act like a Dudley DoRight; you ain't no cop boy.

- OPERATIONS SLOWLY SLIPPING BACK TO "ABNORMAL" DEPUTY McCANT GLOATS

The hard work of a team of prisoners restored some of the operational failures here at MCI Shirley. Much to the chagrin of Deputy McCan't they were able to get movement times close to on-time, get the 2:30 pm lock-in eliminated, stop the nightly "booze cruises", and get some of the buildings open that were consistantly closed. Now, under the watch of the good-ole-boy, long-time ShirleyWorld hideout layabout, Deputy McCan't, things are slowly slipping back to "abnormal"; and McCan't sits on his lesser Throne and grins. Deputy McCan't (he McCan't find enough ways to hideout here in the woods of Shirley and ruin lives) has played some of his good-ole-boy network cronies in key spots in order to "disrupt the normal operations of the gulag". Sgt. Tex calls movement when he is good and ready as he carries no watch. Where he comes from there are only Steers and Queers and we can't see any horns on him! On 3-11 McCan't has his boy Lt. Shameless Peckerwood. Scared to death he does what he can to delay the movement, but in the end, due to his true cowardice, it ain't all that effective. Sgt. Del-Maniac and Sgt. Riz-Outto care little about what The Boot has said about movements being on time; they know McCan't is in "Operations" and in the end he will have their back. The biggest tool in Deputy McCant's bag of correctional failure tricks are his Ship of Fools Captains; Captain Shebert, Captain Cant-Find-A-Way, Captain Stupid, and now Captain McCon-Hater. These troths into which your tax dollars are poured care nothing about public safety or setting a good example. They are Lord of a Kingdom of Dirt. They are Monarchs over an Empire of Evil. Shame on you Deputy McCan't. You can no longer hide out here at ShirleyWorld; the world is now watching.

- ** BREAKING NEWS ** NAME CHANGE FOR THE BOOT - NOW "RUBBER STAMP WRY-HAND"

After an overwhelming plea from the masses here at ShirleyWorld in response to her standard operating procedure signing off on the rampant evil here, our Ivory Tower leader will no longer be known as "The Boot", but will from this day forward be known as "Rubber Stamp Wry-On". If the D-Board officer violates the law never worry Wry-On will "Rubber Stamp" his decision. If IGC Burry-Anus manipulates policy and outright lies in your grievance decision, not to fear Ms. Wry-On will "Rubber Stamp" his

madness. If a cop beats a con, actually admits to throwing the first punch, they can rest assured that any investigation report will be "Rubber Stamped" unfounded by Ms. Respondeat Superior Liability Be-Damned Wry-On. "Let em sue me!", is her motto as men get abused in the HSU, CO Hands-On-Sin actually torturing blind folk, Superintendent Rubber Stamp Wry-On will insulate that dirty coward of a no good cop from any punishment. With that "Wry" look on her face she will stamp the complaint "unfounded". Rubber Stamp Wry-On looks down from the Ivory Tower with impunity (or so she thinks) while the Peckerwoods, McHardlys, Hands-On-Sins, and other abusive oxygen wasters abuse the weak, sick, and dying. Her day is coming; the masterwork lawsuit is being constructed as guided by the Holy Spirit, and the abuse will be revealed on a large scale. The wicked can be redeemed, but it appears that the Evil DOC has too strong of a hold on her soul. St. Peter does not accept Rubber Stamped papers at the gates of heaven (but the devil loves them in hell!).

- THE ANGRY INCH: CO HEADPIG - SHIRLEYWORLDS FINEST

The rampage that the "Angry Inch" (the women guards say he is hung like a hamster) has been on has been recognized by the guard's union with their yearly Attila The Hun harassment award. Union Spokesman Art Ofwarr stated, "CO Headpig has gone above and beyond what is expected of an abusive guard here in the Commonwealth." They union has recognized his breaking prisoner property, destroying cells in shakedowns, getting knocked out by a prisoner after causing the incident, and stopping men from going to chow on the walkway. "He spends almost his entire shift messing with prisoners. What more could you ask of a guard? He is a shining example of what our union strives for; total anarchy.", said Union President Hal Atosis. CO Headpig seems to be in search of an identity as no one can figure out who he is. "On his job application he checked 'other' under race and 'same sex only' under gender, not that there is anything wrong with that.", President Atosis went on to say. "His Elton John abd Freddy Mercury tattoos say a lot about his use of his free time." Superintendent Wry-On has promised to Rubber Stamp any further abuse for the rest of the year in honor of the Attila The Hun Trophy.

More To Come...
