

RANT TO RAVE

Independents 2014 entry

They just implemented A Knew Rule on inmate indigent postage. Apparently if you're indigent and are trying to send out an envelope that weighs more than one ounce, you will have to break get down in to what will be and ~~ounce~~ and use the envelopes that you have. Indigent inmates are only allow to order ~~rs~~ prefrank stamp envelopes while in IMA.

And you only get to order store once every two weeks. That means you only get 10 envelopes a month to do your business. So, one can't really complain.

I tried to send out the 3 Poems to The New York Quarterly and the postage for what was I thinking writing a writing contest submitting poems.

maybe sometime later on in life that may be okay but sure not know. It was just 10 pages. Well, if you want to hear them then my suggestion is that you find that state and private corporation that is recording me (jacking off in my cell) without my full knowledge or consent and get a ~~that~~ ticket or you might can get their internet address and listen to it. In fact you my just be able to catch me hitting one live. It don't matter if I consented to it. Because I don't and every did I was manipulated and coerce to do it. Because I was a dumb ass idiot. I couldn't read or write. And with poor comprehension you want be able to figure out the plot or get out of it.

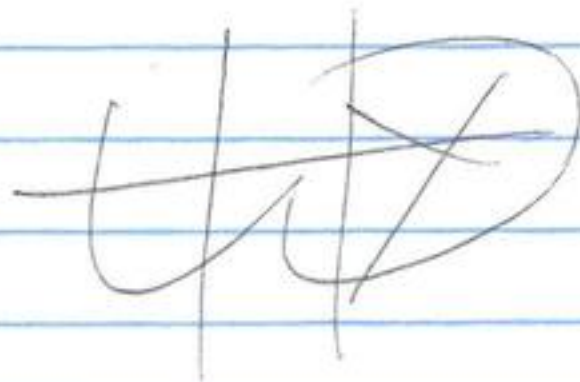

They (my so call family) been recording me in my personal life for sometime apparently and living pretty good off the earn while I bathe in the misery they create.

Hey! Did I mention that I'm about to be set up again by the state on another criminal charge.

In this crack pot of an attorney don't make shit any more easy for the shit. Well! what's 10 year more years upon the 100th of years

I'm doing...

P.S.

And I sure did'nt willingly sign any papers which would allow them to put me in confinement for 20 years 7 year or my life. I wish I had attorney and access to those documents so I can challenge them in a legitimate court of law if their any in this nation.
