GREETINGS my good people!!! I know, I know, it's been awhile since the last time, I've dropped something on you'all. But trust and believe, I have alot to say because alot has been going on. First, I want to say Thank You very much, you'all that has read my site and left comments. My wife LAURA has been keeping me up on what people been say.

To the man from Springfield Missouri, who has the son that has some ~~thing~~ challenges ahead of him. My advice is to continue to show him love. If you can help him with a lawyer. Let him know that just because we made one bad choice, doesn't mean life is over, Now it's time, to start making better choice's, make them with a purpose attached to them. And everything will work-out. Thank You Mr. Springfield keep reading the Blog, please tell others about it.

So for the last past, few months has been crazy, this prison has been going on locked down, like every other week. The longest we stayed down was Ten days, Two Officers got stabbed (can we all just get alone?) And then, one day after we got off of lockdown, another Officer got roughed up. Back down we went. The summer came with alot of fireworks. I'm a peaceful brotha but this is prison and things happen. I'm done with working in the kitchen, for the last past 90 days I was forced to work in the kitchen, I didn't like

It, but I showed up, did my work, because it's mandatory for everybody to get that 90 days in and then you can apply for a different job.

So ~~the~~ last past Saturday Laura, came to see me, we had a special visit, normally, visits only last for four hours, but because we had the special visit set-up we visited for eight hours, and I really enjoyed her ~~company~~ company. She a very beautiful, smart, and loyal woman. Thank you Laura for being a part of my life. Men tell your woman that you love her, women tell your man, that you love him. More important is that you'll show it.

My Brotha, whom is from the same neighborhood, we caught our cases in the same year, he was able to walk out of prison after 20 years, this month he was only 14 years old at the time he got locked-up, I was already locked-up, so when he came to the juvenile dorm, since he was only 14 years old, all he wanted to do was fight, to let everybody know he's standing on his square. Now he's home and I'm very happy for him, I can't wait until my time comes. Tomorrow my lawyer is having a meeting with some more lawyers here in Missouri, because the Missouri Supreme Court is taking forever to hear my cases, but I'm hanging on, it has been said, that patience is a virtue. I know that everything will work-out in the end.

 on there and read it.

ONE FALSE STEP

Whilst we are living in peace and harmony, the world today lives in constant fear, suspicion and tension. This is due to the existence of deadly weapons that could cause unimaginable destruction or annihilation within the space of minutes. Brandishing these awful instruments of death, the super powers are threatening and challenging one another, boasting shamelessly that one can cause more destruction and misery in the world than the other. They have travelled along this path of madness to such a point that, now, if one false step is taken in a certain direction, the result will be nothing but mutual annihilation along with the total and complete destruction of humanity.

I hope and pray, that we can start taking some real steps toward saving humanity.

Thank you for your time, please
come back, share this food with a friend
