- DEPUTY McCANT RECEIVES PROMOTION from "MARSHALL" TO "PATROLMAN"

Big news from the ranks of the social climbers within the new revamped DOC. Long-term ShirleyWorld hideout/layabout Deputy McCan't has received an esteemed propmotion from "Magazine Marshall" to "Pillow Patrolman". Many a lay person would not know that this \$85,000.00 per year glorified guard gets paid to read all the various magazines that come into the prison to determin if they "are fit for prisoner consumption". You "McCan't" make this shit up; the truth is stranger than fiction. Just picture good ole boy McCan't, feet up on his desk, Monica Lewinski cigar in hand (possibly a Lt. Urine Cohiba), reading the latest issue of Time or Newsweek to see if it might be detrimental to a sick and dying 80 year olds "rehabilitation". Now this ShirleyWorld Big Wig has been promoted to Regional "Pillow Patrolman" of the Northern Massachusetts Sector. This Sherlock Holmes of cell decorum "seized" an approved pillow from a Free Speech Soldier's cell, returning one week later to "follow-up" on that seizure. "Men won't have extra medical pillows of my watch...", McCan't mumbled to DOS Hands-On-Sin. "We have coddled these men for far too long as I have learned from reading their Maxim, Sports Illustrated, and Student Insurgent magazines." Maybe he should try reading "Life" magazine as he is certainly in search of one.

- LT. SHAMELESS PECKERWOOD THREATENS ACCIDENT PERP WHO IS "MILES AWAY"

Our fine refaced oxygen wasting lieutenant, Shameless Peckerwood, was overheard in the chowhall making "ex post facto" threats against CO Hams-End who had once crashed into his car out in the parking lot; the key to these coward threats was that CO Hams-end no longer works at ShirleyWorld and is miles away while this contry bumkin of correctional pipe dreams talks his "I woulda" and I shoulda's". When CO Hams-End crashed into Peckerwood's car, known as the P-Town Pimp Pinto (his vanity plate reads "Ram Rod"), Peckerwood receded into the word work like CO Birdseye stalking a bear. You should have seen his face increase in redness the night Deputy Denied-Oh stayed through the 3-11 shift to attend the Stockholm Syndrome group. One of his underlings, CO Droopy Drawers had the school building door held open with a trash bag tie (which is done everyday) and Shameless chastised this oxygen waster by telling him "Don't make me look bad in front of the deputy!" I guess he has not looked in the mirror lately. This fool runs around with a clip board (I believe a copy of Playgirl is attached) and as soon as he leaves the blocks after signing off rounds the guards all make fun of him. He tells stories about cons in the chowhall and as soon as he walks off the guards he told them to tell "Stupid Peckerwood" stories about him. He should join Deputy McCan't in reading "life" magazine!

- SERGEANT "BIG CHEW" SEEKS FAME AND FORTUNE AT SHIRLEYWORLD

Sergeant "Big Chew" Charlestown has approached a member of the "Free Speech Brigade" seeking fame and fortune in the Big City that is wild ShirleyWorld. Rumor has it that this badge wearing Don Juan

carries a big stick and likes to mesmerize the random correctional trollop with a ride on the "Big Chew Express". Our hopes at the Free Speech Compound that he does meet the likes of Lt. Urine or Sgt. Car-Man while he patrols the "Ho Stroll", as Lt. Urine surely has a dash of the "Beaver Wart" and Sgt. Car-Man may be packing a bigger "Night Stick" than the Big Chew! Good ole Billy B. liked these guy, thought he was in the wrong business, and he is not like the rest of these ShirleyWorld backwoods cowards who can only act tough as they know they have a bitch button on their side. It appears that he may be one of the few guards who is not rotting from the inside out. It appears that he may be grateful he has a good job and is not lifting shingles up a ladder in 100 degree heat. Billy B. would like to buy him a drink at the Golden Banana in the sky!

- CRACK "WALKS AND GROUNDS" LEADER LEAVES SECURITY GATE OPEN/TURKEYS FLEE

The Head of the cracker jack "Walks and Grounds" crew here. CO Scum-lafia, left one of the security gates open which attached to the prisoner yard. As no prisoner would ever want to leave this bastion of rehabilitation that is ShirleyWorld it did not present a real "escape" risk (no one would want to leave the caring bosom of Deputy DeNied-Oh or Rubber Stamp Wry-On) but it did allow some of the visiting turkeys to escape. CO. Scum-Lafia's response was quite enlightening; "These turkeys never went through the visitor screening process, no drug sniffing dogs ever checked them for suboxone. I just gave them a way out as they were not welcome in Shirley-World. The president pardons turkeys why can't I?" This is probably the first time that a bunch of stupid turkeys were freed by a stupid turkey. Rubber Stamp Wry-On had thought of subjecting Mr. Walks and Grounds to a breathalyzer test but she heard the stories of how he broke the last one he blew into and she did not want incur the cost of replacing the one the have here. "We have done all we can to keep this man off the riding mower as he may be a bit tipsy from time to time. You can't expect him to remember to lock gates as well.", Rubber Stamp Wry-On commented. We could not reach CO Scumlafia for comment as he was at the Kettle One Picnic in Key West; See the Keys on your knees!

- SGT. BITCH AND LT. PECKERWOOD "TEAM UP" FOR THE SABBATH / SATAN SMILES

The planets must have been alligned last Sunday as the King of all Thieves, Sgt. Bitch, and the Village Idiot, Lt. Peckerwood, were both working the 7-3 shift. Chaos was the rule of the day with Sgt. Bitch hiding his bloodshot eyes behind his pair of 1980's sunglasses and Lt. Peckerwood's glowing red face lighting up the walkways as these two law enforcement shining stars patrolled that walkway for men passing Ramen noodles. Move aside Martin and Lewis, Brooks and Dunn, Stiller and Meara, and make way for the new team of Bitch and Peckerwood! This team has one made make the poor decision and the other sign off on it.

One thinks up the abusive act and the other carries it out. Sgt. Bitch will have to share his "toilet paper proceeds" with Lt. Peckerwood and Shameless will teach Sgt. Rich how to "dry snatch" when another guard smacks you around when you run your gums. The International Society of Cowardly Turnkeys is considering awarding these dynamic duo their coveted "Pink Heart" Medal of Dishonor. This decoration is given for extreme self-hatred, outwardly manifested on helpless prisoners, by a team of two or more correctional fools. To vote for the team of Bitch and Peckerwood please call: 1-800-BIG-FOOL.

- SGT. YOUNG-UN WINS AWARD FROM LOLLIPOP KIDS FOUNDATION

Sgt. Young-Un has won the "Golden Step Ladder" award from the Lollipop Kids Foundation who represents the vertically challenged. This award was given to Young-Un for his skill at policy manipulation and mastery of the "bleach" patrol. Sgt. Young-Un has made up his own policy, which runs contrary to the written rules, about what can go on a prisoner bulletin board. He also was recognized for stamping out any bleach that may be found in a unit where they have put a laundramat. "Bleach is a Class A felony as far as I am concerned.", Sgt. Young-Un said into the interviewers belt microphone. "If you think I'm gonna let some hardened 80 year old con put a picture from a magazine on his bulletin board, even though prison policy says he can (as does Massachusetts case law) you are sadly mistaken.", said Young-Un. Men die in the HSU, recidivism is 47%, suboxone fills the prison, and Sgt. Young-Un is worried about what is on a bulletin board. "We are sorry he could not go on the rides at Disney-World, but he really should not take that out on us.", said Ima Dyin in Unit D-1. "I've got 52 years in on this second degree murder bid and I had this picture of Gina Lolabrigida since 1962.", said Abdulah Swartzman Zimbabwe of Unit D-2. Sgt. Young-Un's Golden Step Ladder will be displayed in Captain Shebert's office and used as a stand for his growing collection of army men.

- BIG HEAD FRED SEEKS BLUE SHIRT BACK / TOMMY "DICKS-OUT" VETOES

As his first official act as new commissioner of correction Tommy Dicks-Out vetoed Recreation Coach Big Head Fred's quest to get that "Blue Shirt" back as a real, honest to goodness, guard again. "Luis Spin-Sir left after covering up a murder, with my help, and I am not gonna let some borderline mongaloid slip into a blue shirt and get me hemmed up when he kills some 90 year old weight lifter.", Timely Tommy was heard upon his ruling muttering. Big Head plead his case to Lt. McHardly on the walkway, thinking a lieutenant outranks the big commish, but what he should have done was go to his sister or niece who both work here:like the Cana wedding folk went to Jesus' mother. ShirleyWorld is hands of now with Tommy at the helm; nepotism forever! Rubber Stamp Wry-On (formerly Deal-With-It-Diva-Dicks-Out) is untouchable now!

More To Come...
