The day before my natural birth-day. - I guess. Like in prison finals we forced. due to proximity - 2 hear takes of this mornings breakfast fight. I was gone. News travels fast thanks to the "beep alarm" that outfits 60's & staff. "Beeeeeep" on the walkie talkie means one of 2 things: Alert call test (hey its me & I'm 10:2-present) or fight/medical emergency.

Lately the "Beeeeeep" has been 4 fights. (I was gone) So at HSN (Health services Unit) at 6:30am people were all excited about there being a fight. They did ~~there~~ ~~be~~ their best to "run to the door" to see ~~if~~ they recognized any of the perpetrators.

"It's 2 black guys!" Then the uproar happened.

"I bet they were fighting over a seat" "That's just stupid: these seats belong to them people (State of WI)"

"I bet they were fighting over waddies."

"I bet they were fighting cause one guy owe the other guy & didn't want to pay up."

"Man 20 yrs in maxx & there wasn't this much fighting but when there was one - it was the best!"

Others, who also commended on the fight - they misseal-complained about their victimization. "Bet the fecal gone be cold now." "They gone to 2 put up plenty "some" trays." "Man, now I'm gone miss my stew"

6:40 ish we were cleared 2 go back to our housing units. The fight happened on more. Dawie joked "I thought u were keeping the peace over here." I teach it servers. I need 2 minutes more - so help me God.

Upon entering the unit I noticed that like

an area 2 tables wide was sectioned off, just like a ~~crime~~ crime scene. Yellow "CAUTION" tape ~~was~~ wiggled in the gentle breeze from the air ducts. My C7 murmured.

Quick as I entered the crew hall it began. "Man u should of been here. A handcrap try'd to [Mrs] I treat my guy. He told him - get my tray - 'No' - 'Bitch' 'What u say?' - then - came 2 the face - then - put the flaps (punches) 2 him - blood - str 8 ~~the~~ crime scene ya - Man I'm tellin u - - -"

2 1/2 way listened prayin he would see that, I'm not interested - hence my not sayin anything that would lead ~~him~~ him 2 give me more details in a retold story w/all the 1st details he 4 get 1st time around.

I knew next time - in a couple minutes - to tell people - politely - "I'm not interested" or "I H8 it here" or "I'll pray 4 them brothers."

News travels fast. Quick as the guy told me what happened ~~and~~ the guy I was fixing came out - took it & made it his own. "Some guy named - & some guy that used 2B on this side w/a cane - he said - then - then - & after that then - blood flew - guys hurt real bad - hospital -"

Crazy.

And at 7:37am I had the privilege 2 tell someone who tried 2 get me 2 give him the gory details. "I was not there - thank Geel." ~~Then~~ The guy then walked away. Sully I suppose people at school will be talkin bout it. Geel is my defense
