

SHIRLEYWORLD UPDATES
"Let The Bullets Fly!"
Chapter XI

by Timothy J. Muise

* * * * *

- PSYCHIATRISTS CONFIRM = ACTIONS PROOF OF "NO LIFE"

DOC "Head" Psychiatrist, I. Will Shrinkem, has issued a detailed report confirming that ShirleyWorld guards have absolutely no viable "life" to speak of and that they are basically wasters of oxygen as we have suspected all along. "Any guards who spend their valuable spare time reading prisoner blogs can't possibly have anything meaningful in their lives.", said Dr. Shrinkem. "In between visits to www.bi-curious.com and www.light-loafers.com these bottom rung of the law enforcement ladder malfeasants spend an exorbitant amount of time reading prisoner blogs. It is indicative of deep-rooted self-hatred and self-loathing but also displays clearly just how sad their excuses for a life are.", Dr. Shrinkem went on to say. "It is a sad state of affairs when the prisoners lead more exciting lives than their whiskey-breathed captors." New DOC "Acting" Commissioner (he should get an Oscar for his "act") Tommy Dicks-Out said, "If they want to read prisoner blogs I will buy them new computers out of the inmate benefit fund since after-all these are prisoner blogs." He went on to say, "I would like to first thank the Academy....."

- GENDER BENDING SERGEANT LEADS "SHORT SLEEVE SHIRT" PATROL

Sgt. Car-Man, who'sambiguous sexuality is a real puzzler to many here at ShirleyWorld, has taken it upon herself to head up the new "Short Sleeve Shirt" Patrol here at the facility. You see after a prisoner has a nice visit with his family we cannot have him thinking he would like to change his life as he leaves that visit; no that would deplete the jobs program that is the DOC. In order to quell that concept Sgt. Car-Man waits until his family visit is over and then informs this poor soul that she will be confiscating his self-purchased dress shirt as he made the long sleeves into short sleeves. Sgt. Car-Man ignores the thousands of suboxone doses that come in through the visiting room each month and chooses to go after the hemmed dress shirts of young men trying to rebuild their family bonds; this is quintessential DOC logic and Sgt. Car-Man is at the top of her DOC game. This latin American brute would scare the devil away from a soul but has found her/his (we ain't quite sure) place here at ShirleyWorld with the other mental defectives earning big bucks at the taxpayers expense. Our hopes here are that Saturday Night Live may bring back their classic "Pat" character and Sgt. Car-Man can fill that role for them!

- DOC IGNORES MCI SHIRLEYWORLD "JOB ACTION" PROTEST / CHEERS THEM ON!

On August 10, 2014, 13 (thirteen!) highly trained guards called in sick here at ShirleyWorld, a clear union "job action" in retaliation for the hiring of new entry level guards who are taking away overtime hours here at the facility. This "Blue Flu" was certainly cheered on by new "Acting" Commissioner Tommy Dicks-Out as he has been a "Rubber

Stamp" leader throughout his tenure with the department of corruption. You have to remember that good ole Tommy D was one of the administrators in charge of the correctional Titanic that is S.B.C.C. when defrocked Priest John Geoghan was killed up there; Tommy D knows well the methods of "Cover Up" and "Allegations are Unfounded", and ain't gonna rock the boat when the guards here engage in their illegal hissy-fit job action. He fears they may bring his skeletons out. I'm certain Commish Dicks-Out is cheering them on like the union (MCOFU) cheers on their team in the P-Town to Key West Road Race known as the "Gay Gallop". Now their is another killing, poor old Billy Sirus, at S.B.C. even after they allowed the guards to have three (3) men per block. Tommy D just left that ship and it appears he directed it toward the rocks prior to his departure. When will the public learn that these draconian dinosaurs are the problem? Let's work to make them extinct!

- THE NEW "RECRUITS" DON THEIR "BLUES" / THE DEVIL FIDDLES WITH JOY

The Devil broke out his golden Charlie Daniels fiddle in celebration of the new herd of minions who donned their "Blue Suits" here at the furnace that is ShirleyWorld. They even hired Tiger Woods as I guess his injuries drove him from golf to signing up to work as a Recreation Coach here at ShirleyWorld. He was seen leaning against the "Shack" with his Red Sunday Victory Shirt on. I guess they also hired a couple of these new "recruits" right out of their junior year at Shirley High School. Acne in full bloom they are "making rules" and "enforcing policy" here in the madhouse. One young oxygen waster had a bit of peach fuzz left on his face and was the benefit of the wisdom of Lt. Peckerwood, "When my child-beard gets out of control I put a little milk on it and let one of my many cats lick it off.", said Shameless. His mishapened head is full of such wisdom and trust and believe he brings it to the table each and everyday here at ShirleyWorld. Captain Shebert and Sgt. Messy-Her are hoping they can get a few phone numbers from our Correctional Tiger Woods as they know he keeps a large "housquad" on tap. Your tax dollar are again hard at work ensuring their are a plethora of "solitaire players" and "nap takers" to drain state coffers.

- DEPUTY DENIED-OH TOLD TO "BUTTON UP HER SHIRT" HEART IS FALLING OUT

Sgt. Car-Man would be proud as the "Powers That Be" here in the DOC has ordered that exteemed correctional professional Deputy Denied-Oh "Button Up Her Shirt" as it was evidenced that "her heart was falling out" in her dealings with sick and dying Bobby D. Bobby was subjected to the abusive "quay" system of Deputy Denied-Oh when she placed three (3) active drug users, with the prison accounts frozen, in the cell with 71 year old Bobby, and then arranged to have Bobby placed in an "isolation bubble" when he had to attempt to defend himself against these predators. This past week Deputy Denied-Oh agreed to give Bobby D. his medical single cell, but we won't forget that she previosuly "denied" him this same cell when Bob requested it prior to needing to defend himself. Deputy Denied-Oh

made Bobby part of her "Wolf / Prey" system and then wants to seem to look like she found a solution for this dying old man (who by the way proved he is tougher than she could ever be and gave her his "back" each time she tried to speak to him; just like the true warrior he is). The Evil Deputy wanted to make him part of her "Death Watch" like the men in the HSU/SNF, but Bobby showed his spirit. God bless him! Button up that shirt Deputy Denied-Oh!

- PROPERTY OFFICER CONTINUES TO COMMIT FELONIES / A.G. SET TO INVESTIGATE

The true humanitarian of a Property Officer here, Lt. Oh-Yea (we call him "Oh-Yea" because when anyone asks, 'Is he an idiot?', the answer is a resounding Oh-Yea!) will soon be the subject of an Attorney General's Office investigation for his ongoing crimes of "theft by conversion" up in his Kingdom of Dirt. Lt. Oh-Yea has prisoners sign "disposal" forms for personal property they turn in. He then "converts" this personal property to state property by assigning the fans, radios, and stereo receivers to various guards at ShirleyWorld. This is a felony in the fine state of Massachusetts and Lt. Oh-Yea won't see it coming when his thin ass is kicked on this topic. Have you ever heard of a "Cowboy" who hates cows? Have you ever heard of a "Fisherman" who hates fish?" How about a Nurse who hates band aids? Well Lt. Oh-Yea is a guard who hates prisoners. Why would you work in this field if you are such a jerk? I know this ain't Greenville, and we did not steal your lunch money, but if you work in a prison you've got to expect their are going to be prisoners. Hopefully when he ends up in the P-Town jail for smuggling bone he will get a taste of what his current felonies may bring him. Hey Oh-Yea, get a life property jockey!

- C.R.A. COMMANDER INQUIRES ABOUT "BLOG" / FIRST BLOOD THEORY PROFERED

The Commander of the "all eggs in one basket" drug recovery program here, the Correctional Recovery Academy (CRA), asked me why I did not blog about things happening in the CRA program. I gave him my true word on how the blog operates; I don't draw first blood. I blog about the oxygen wasting idiots here who do something stupid or abusive to my friends or I. No one from the CRA has done anything I would consider a "First Blood" violation, but I will say us in the "abolitionist" movement are not too happy that your parent company won't release any "success" tracking stats. Does your program work? Well one recidivism study showed that 50% of recidivists had previously completed the CRA program; not good news for you folks. Addiction is serious business and must be addressed in prison. Be certain your shit is tight over there or I may place a "First Blood" violation against you. You should have no problem getting dough from the deep pockets of the DOC!

More To Come...
