

# BLACKMAN'S RAGE

by NIMARODAS

S/N OTIS LEE RODGERS

Scorned by his woman for being economically disadvantaged, murdered and discriminated against by the white power structure New Afrikan black man's only true crime is that he was born and survived the worst his enemies have heaped upon him. Officially an endangered species, his life expectancy is lower than any other with a significant chance of being imprisoned or the victim of before he reaches twenty-four years of age.

Outnumbered, alienated, ostracized and disproportionately punished, he struggles on to survive despite the odds in one of the powerful, fascist/<sup>CORRUPT</sup>racist/nation on the face of the earth and in of history. Needless to say the New Afrikan black-male is the de la creme, an exceptional human being, a true "survivor" against odds This special and unique human being is not only courageous resolved, his genetic survival programming after nearly four-hundred years of/<sup>GENOCIDAL</sup>oppressive-devastation has produced within him the epitome of what it means to be a survivor, A REAL HUMAN BEING

He is a true enigma personified, having successfully acclimated in a most intolerable hostile environment. Threats of death is his reality, it is his constant-companion. Even before he reaches the age of twelve he fully realizes that his uncertain existence is none in this place called "Hell on Earth" (United States of America) fraught with uncertainty. It is the actual dilemma of his plighted no doubt, instinctively causes him to procreate at an alarming rate beyond his reasonable ability to support - unquestionably, to reduce the casualties in this centuries old "Race War" against his survival.

Accused by his woman of being promiscuity, <sup>UNFAITHFUL</sup> AND of fraternizing with white women - accused of being a criminal by whites; yet cri in some areas and in many instances is his only employer. It is employment where he doesn't have to be twice as good as whites, where he doesn't have to concern himself with whether or not the is an equal opportunity employer. While there is a slew of advise what he could or should not be doing, there is little or none as the fascist/oppressive-dominate white power structure need to do a less hostile, anti-racist, discriminatory white "privilige" env:

Unquestionably, the black man's survival is attributed solely will-power, his sheer indomitable courage and strength to survive upon centuries of atrocities heaped upon him by his oppressors/ene To the New Afrikan black-male the idealistic luxury of what he co or should not do hasn't arisen as an endangered species his all-co and <sup>He is</sup> /too preoccupied with just surviving.

We look at the martyrdom of the Afrikan black-male, the salt c ameriKKKa, the strongest and finest the world has to offer. Yet, our ungodly-ignorance criticize & poke fun at the black man for no being a better victim. As if placed in a similar situation any of would or could have fared any better. Having survived a never-end genocide/holocaust; the absolute worst the enemy had; being the "t of hatred, oppression, murder, mayham anf systematic institutional racism. many a times the soul of the blk-man screams out to his innumerable detractors, inquiring "Who are you?" You who have not developed a soul and whose only claim to life is that of its criti You <sup>WHO HAVE</sup> ~~who have~~ not even developed a soul and have not even been trie <sup>TRVED THROUGH</sup> ~~through~~ the fires and tribulations of life

There is something mystical and spiritual about the black man when I meet another black man during my travels, my soul screams "I am happy to know you exist and that you have survived thus far as if like meeting a fellow soldier headed towards the frontline, realizing that the odds are wherever he goes he'll be victimized, oppressed, abused, discriminated against and very likely murdered by our enemies. While someone such as myself may have the <sup>LUXURY</sup> time and ~~interest~~ to reflectively look into the life of the most oppressed, despised and being in ameriKKKa. The average black man has neither the time nor the inclination or necessity to become sentimental about his living realities. All of <sup>HIS</sup> our energies are needed for today. Whose insatiable survival drive is unfortunately on automatic pilot. Never has a group of individuals so bravely suffered so much for so long, whose crystallized spirit has been tried and true through the fires of adversity until it has become his driving force, the <sup>INDOMITABLE</sup> will to live. That is why he is called soul-brother=(one with a soul!).

COMMENTARY(1): What the black man has been missing from the beginning is HATRED, HATE TO THE DEATH OF HIS ENEMIES, THE EXACT SAME <sup>hatred</sup> that his enemies have always had for him. Power to exercise his knowledge and to demand RESPECT!. The black man must seek control over his destiny "at all cost" and "by any means necessary" or DIE TRYING IF WE ARE TO SURVIVE AS A PEOPLE. We can no longer continue to pass on this unresolvable <sup>CENTURIES old</sup> WAR against our people. We must become liberated, independent with honor and reparation. To establish our sovereign nation THE Republic of New Afrikā; we must sacrifice ourselves NOW. We cannot continue to simply survive as aliens in our own
